# Family Configurations, Assumptions and Demographics 

Basic Needs Budget Technical Advisory Committee

Patrick Titterton, JFO
September 22, 2023

## Outline

- Summary of the demographic assumptions made in the report
- Vermont household composition Census data
- Age and sex distribution of children
- Geographic distribution of Vermonters

Assumptions

## Household configurations

- Basic needs budgets and livable wages are calculated for six household configurations:
- Single person
- Single Parent with One Child
- Single Parent with Two Children
- Two Adults with No Children - two wage earners
- Two Adults with Two Children - one wage earner
- Two Adults with Two Children - two wage earners
- The livable wage is based on the calculated budgets for a two-adult household without kids

## Other Household Assumptions

- Single persons and single parents are women between 20 and 50 years old and work outside the home; all other adults are between 20 and 50 years old.
- Two-adult households are assumed to be married couples or cohabitating partners.
- One child is 4 years old; two children are 4 and 6 years old.
- The younger child is a boy, the older child is a girl.

## Household Composition in Vermont

Are the family configurations and assumptions still appropriate based on Vermont's demographics?

## Vermont Household Types

| Category | Percent Share | Total |
| :--- | ---: | :---: |
| Married Households | $47 \%$ | 123,588 |
| Cohabitating Households | $9 \%$ | 23,222 |
| Single Households | $31 \%$ | 80,511 |
| Households No Spouse/Partner Present | $13 \%$ | 35,193 |
| Total | $\mathbf{1 0 0 \%}$ | $\mathbf{2 6 2 , 5 1 4}$ |

Source: American Community Survey

- The two most common household types in Vermont are married and single (living alone) which account for $78 \%$ of total households.
- There are 35,193 ( $13 \%$ ) households where there is no spouse/partner present but could include children or roommates.
- There are $23,222(9 \%)$ cohabitating partner households making it the least common type.

## Vermont Households with children

- Overall, there are 63,429 VT

Vermont Households with Children
 households with children which equates to $24 \%$ of total households.

- $68 \%$ of these households have two adults that are married.
- $23 \%$ of these households are single parent households.
- $10 \%$ of these households have two adults that are cohabitating.

## Single Households with children

Gender of Single Householder with Children

■ Male ■ Female

- $23 \%$ of households with children are single.
- Of these, the $19 \%$ of the householders are male while 81\% are female.
- Reminder: the basic needs budget report assumes that this householder is female.

## Single Households (living alone)

## Gender of Single Householder Living Alone

- Of the $80,511 \mathrm{VT}$ households with a single adult living alone 36,029 (45\%) are male and 44,482 (55\%) are female.
- Reminder: the basic needs budget report assumes that this householder is female.

## Two Adult Households without children

Two Adult Households without children

- Married
- Cohabitating
- Householders no spouse/partner present (Excluding those living alone)
- 68\% of two adult households without children are married couples.
- $14 \%$ are cohabitating partners.
- $18 \%$ of households without children are single people living with others who are not their partner/spouse.

## Key Takeaways

- $81 \%$ of single householders living with their children are female.
- BNB Report Assumes these households are female.
- 55\% of single householders living alone are female.
- BNB Report assumes these households are female.
- $68 \%$ of two-adult households with children are married.
- BNB Report assumes these households are married.
- $68 \%$ of two-adult households without children are married.
- BNB Report assumes these households are married.

Vermont's Children

## Assumption Reminder

- One child is 4 years old; two children are 4 and 6 years old.
- The younger child is a boy, the older child is a girl.
- These assumptions have been used since the first report.
- The ages were assumed because the 4 year old would be preschool age and the 6 year old would be school age which affects household childcare spending.

## Vermont Children Ages

|  | 2008 |  | 2022 |  | Difference |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Count | Share | Count | Share | Count | Share |
| Under 5 years | 32,344 | $21.0 \%$ | 27,594 | $20.5 \%$ | $-4,750$ | $-0.5 \%$ |
| 5 to 9 years | 34,933 | $22.7 \%$ | 31,579 | $23.5 \%$ | $-3,354$ | $0.8 \%$ |
| 10 to 14 years | 38,963 | $25.3 \%$ | 33,802 | $25.1 \%$ | $-5,161$ | $-0.2 \%$ |
| 15 to 19 years | 47,893 | $31.1 \%$ | 41,564 | $30.9 \%$ | $-6,329$ | $-0.2 \%$ |
| Total | $\mathbf{1 5 4 , 1 3 3}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{1 3 4 , 5 3 9}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{- 1 9 , 5 9 4}$ | $\mathbf{0 . 0 \%}$ |

Source: American Community Survey

- Since the last technical advisory committee met in 2008 there are almost 20,000 fewer children in Vermont.
- However, the distribution of ages is largely unchanged.

## Vermont Children Age by Sex

|  | 2008 |  | 2022 |  | Change |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Male | Female | Male | Female | Male | Female |
| Under 5 years | $51.6 \%$ | $48.3 \%$ | $50.9 \%$ | $49.1 \%$ | $-0.7 \%$ | $0.8 \%$ |
| 5 to 9 years | $51.5 \%$ | $48.1 \%$ | $51.6 \%$ | $48.4 \%$ | $0.1 \%$ | $0.3 \%$ |
| 10 to 14 years | $51.2 \%$ | $47.9 \%$ | $52.1 \%$ | $47.9 \%$ | $0.9 \%$ | $0.0 \%$ |
| 15 to 19 years | $51.6 \%$ | $47.4 \%$ | $51.8 \%$ | $48.2 \%$ | $0.2 \%$ | $0.8 \%$ |
| Total | $51.5 \%$ | $47.9 \%$ | $51.6 \%$ | $48.4 \%$ | $\mathbf{0 . 2} \%$ | $\mathbf{0 . 5 \%}$ |

Source: American Community Survey

- Since the last technical advisory committee met in 2008 the split between male and female children is largely unchanged.

## Average Number of Children

- There are approximately 63,000 Vermont households with children under the age of 18.
- There are approximately 115,900 resident children under the age of 18 in Vermont.
- This means that on average there are 1.83 children under the age of 18 among those households that have children.
- Source: American Community Survey

## Geographic Analysis

## Geographic Assumptions

- The report includes calculations for each of the household configurations for both urban and rural areas.
- The urban designation refers to Chittenden County and relies on data classified as the Burlington Metropolitan Statistical Area (MSA).
- The rural designation refers to the rest of the State.
- Reminder:
- The livable wage is the average between the urban are rural wages for a twoadult household with no children.

## Urban and Rural Populations

| County | Urban or Rural | Population (18 <br> and up) | \% of Population <br> (18 and up) |
| :--- | :--- | ---: | ---: |
| Addison | Rural | 31,101 | $6 \%$ |
| Bennington | Rural | 30,152 | $6 \%$ |
| Caledonia | Rural | 24,503 | $5 \%$ |
| Chittenden | Urban | 137,649 | $26 \%$ |
| Essex | Rural | 4,939 | $1 \%$ |
| Franklin | Rural | 38,700 | $7 \%$ |
| Grand Isle | Rural | 5,980 | $1 \%$ |
| Lamoille | Rural | 20,644 | $4 \%$ |
| Orange | Rural | 23,886 | $5 \%$ |
| Orleans | Rural | 21,928 | $4 \%$ |
| Rutland | Rural | 49,974 | $10 \%$ |
| Washington | Rural | 48,511 | $9 \%$ |
| Windham | Rural | 37,607 | $7 \%$ |
| Windsor | Rural | 47,174 | $9 \%$ |
| Total |  | $\mathbf{5 2 2 , 7 4 8}$ | $\mathbf{1 0 0 \%}$ |

- This report assumes that Chittenden County is urban while the rest of the state is rural
- Chittenden County has the largest adult population in Vermont

## Urban and Rural Populations

| Area | Population (18 <br> and up) | \% of Population <br> (18 and up) |
| :--- | ---: | ---: |
| Rural | 385,099 | $74 \%$ |
| Urban | 137,649 | $26 \%$ |

Source: American Community Survey

- Chittenden County has by far the largest adult population, comprising one quarter of the states population
- $74 \%$ of Vermonters live in counties considered rural.
