

Greetings everyone for School board of Vermont education Equity Department this is. My written testimony" is to support Vermont communities for people with disabilities learning needs around Vermont school systems for transparency Equity inclusion diversity and fairness respect determination for all students myself a person of color with disability learning disability that has autism ADHD dyslexic dyslexia and others cognitive speech issues needs I register as a Vermont advocate self-advocates within the disability communities of Vermont including everyone in this vulnerable population group students children adults college students preschoolers caregivers toddlers babies Etc deserve to have learning material from schools that work for them this is not a one size fit all approach we need to understand that everyone in Vermont communities learn differently from each other we need to understand acknowledge except respect for one to another kindness ability to help others with their learning needs or specific learning needs let's all work together so we all can meet and exceed our goals within the Vermont learning educational system let's move forward and work together for Vermont's youngest students."
