Fiscal Note

April 25, 2025

Nolan Langweil, Principal Fiscal Analyst

S.27– An act relating to medical debt relief and excluding medical debt from credit reports

As Passed by the House of Representatives^{1,2,3}

Bill Summary

The bill would direct the State Treasurer to contract with an entity to acquire and abolish certain medical debts for Vermonters with incomes at or below 400% of the federal poverty level (FPL) or who owe medical debt equal to 5% or more of their household income. It would also prohibit credit reporting agencies from reporting or maintaining information on Vermonters' medical debt and would prohibit health care providers from reporting medical debt to credit reporting agencies.

Fiscal Impact

Section 1 would appropriate \$1 million from the General Fund to the Treasurer's Office to contract with a nonprofit entity to acquire and repay certain medical debts incurred by Vermont residents.

Section 2 would further amend the appropriation in Act 83 of 2022 (as amended by Act 185 of 2022 and Act 78 of 2023, the fiscal year 2023 and 2024 appropriations acts, respectively) by reducing the appropriation to the State Treasurer's Office in Sec. E.1000 from \$20 million to \$19 million. This would free up \$1 million to cover the appropriation in Section 1.

Background and Details

The purpose of the initial \$20 million appropriation to the Treasurer's Office was to improve the debt position of the State by redeeming general obligation bonds prior to maturity. It is estimated that buying \$1 million in bond debt could save the State approximately \$50,000 in interest.

The \$1 million appropriation would be used to contract with a national nonprofit called Undue Medical Debt, whose purpose is to "strengthen communities by erasing financially burdensome medical debt."⁴ According to the Treasurer's Office, this could eliminate \$100 million in medical debt for Vermonters.
