Bill Summary

This bill addresses the negative economic impacts of COVID-19 on Vermont's economy, employers, workers, and families and establishes opportunities to grow Vermont's economy. It establishes several workforce and economic development programs and updates the scope and funding for existing programs.

The bill creates or enhances programs with the goals of increasing workforce participation rates as well as training and retaining workers in nursing, mental health care, and the trades. It includes scholarships and student loan repayment, networking, learning and up-skilling campaigns, and support for internship programs. The bill also includes appropriations for new and existing economic development programs that are aimed at supporting businesses and municipalities, reimbursing leave related to COVID-19, and assisting specific sectors including Arts and Culture.

Fiscal Summary

The bill appropriates an overall total of \$98.2 million. This includes:

- \$30.7 million in General Fund appropriations,
- \$15.0 million in Education Fund appropriations, and
- \$52.5 million in American Rescue Plan Act State Fiscal Recovery (ARPA SFR) appropriations. Of the total amount of ARPA SFR dollars appropriated in the bill, \$28.0 million occurs in FY 2022 and \$24.5 million occurs in FY 2023.

Table 1 in the appendix provides a more detailed summary of the bill's appropriations.

Background and Details

The bill appropriates \$98.2 million overall. The appropriations are from three different sources. \$30.7 million are sourced from the General Fund, \$15.0 million are sourced from the Education Fund, and \$52.5 million are in ARPA SFR funds.

The bill reverts \$25.5 million in unspent ARPA SFR dollars appropriated to the Agency of Commerce and

Economic Development for the Economic Recovery Grant Program in FY 2021 in Act 74 Sec. G. 300(a)(13) back to ARPA SFR for the purpose of funding Economic and Workforce Development programs.

Overview of Appropriations

The following programs have fiscal impacts and are described briefly here:

Immediate Strategies and Funding for Expanding the Labor Force, Increasing the Number of Participants and Raising Participation Rates

Section 1 appropriates \$2.5 million in FY 2023 in General Fund dollars to the UVM Office of Engagement in consultation with the Vermont Student Assistance Corporation to administer a statewide forgivable loan program of \$5,000 per graduate who commits to work in Vermont for two years after graduation. It also appropriates \$500,000 in FY 2023 in ARPA SFR funds to the State Refugee Office to administer grants to refugee or New-American focused programs to support increased in-migration or retention of recent arrivals. The last appropriation in Section 1 is \$387,000 in General Fund dollars in FY 2023 to Vermont Technical College to develop a skilled meat cutter training and apprenticeship facility.

Investing in the Upskilling of Private Sector Employers to Support the Evolution of Business and Organizational Models

Section 4 appropriates \$250,000 in General Fund dollars to the Agency of Commerce and Community Development (ACCD) in FY2023 to regrant a performance-based contract to the Vermont Professionals of Color Network for business coaching and other training for BIPOC business owners, networking, and career fairs, workshops and paid internships.

Regional Workforce Expansion System

Section 5 appropriates \$1.5 million in General Fund dollars to the Department of Labor in FY 2023 for a two-year pilot program to create a coordinated regional system, beginning in three regions of the State, to increase local labor participation rates; decrease the number of open positions; increase worker wages as they transition to new jobs; and collect, organize, develop, and share information related to local career pathways with workforce development partners. The bill authorizes the Department to hire four classified, two-year limited-service positions to perform the work described above that will report to the Workforce Expansion Division.

Incarcerated Individuals Development Pilot Program

Section 6 appropriates \$420,000 in General Fund dollars to the Department of Corrections in FY23 to address vocational enhancement needs. It also appropriates \$300,000 in General Fund dollars in FY 2023 to the Department of Corrections to establish a community-based pilot reentry program at Chittenden Correctional Facility to provide continuity of services for justice-involved individuals.

Work-based Learning and Training Program

Section 12 appropriates \$1.5 million in General Fund dollars in FY 2023 to the Department of Labor to implement the Vermont Work-Based Learning and Training Program created in the bill. The Program will be developed statewide by the Department of Labor to serve transitioning secondary and postsecondary students and Vermonters seeking work-based experience as part of a career experience or change.

Vermont Trades Scholarship Program

Section 14 appropriates \$3.0 million in FY 2023 in General Fund dollars to the Vermont Student Assistance Corporation (VSAC) for scholarships under the Vermont Trades Scholarship Program for trades students who demonstrate financial need. It creates a scholarship program to be administered by VSAC to disburse initial licensing fees, exam fees and tuition payments on behalf of eligible individuals. Any funds left over at

the end of the year will be rolled over and available to VSAC the following year for scholarships.

Vermont Trades Loan Reimbursement Program

Section 15 appropriates \$500,000 in General Fund dollars in FY 2023 to create the Vermont Trades Loan Repayment Reimbursement Program in which VSAC will disburse funds to eligible individuals for loan repayments. For every year of work in qualifying occupations, an individual can receive \$5,000 not to exceed the amount of debt owed. Any funds left over at the end of the year will be rolled over and available to VSAC the following year for loan repayment assistance.

Career Technical Education Construction and Rehabilitation Experiential Learning Program; Revolving Loan Fund

Section 16 appropriates \$15.0 million in Education Fund dollars in FY 2023 to the Vermont Housing Conservation Board to create and administer a CTE Construction and Rehabilitation Learning Program and Revolving Loan Fund. The board may use not more than 5 percent of the Fund for the costs of administration. Absent any other changes in policy, the base homestead property yield and/or base non-homestead property tax rate would need to be adjusted to account for this appropriation from the Education Fund.

Emergency Grants to Support Nurse Educators

Section 20 appropriates \$3.0 million in ARPA SFR dollars to the Department of Health in FY 2023 to provide emergency interim grants to Vermont nursing schools. This is a three-year appropriation that allocates \$1 million in FY 2023, \$1 million in FY 2024, and \$1 million in FY 2025.

Nurse Preceptor Incentive Grants; Hospitals; Working Group; Report

Section 21 appropriates \$2.4 million in General Fund dollars to the Agency of Human Services in FY 2023 to provide incentive grants to hospital-employed nurses in Vermont to serve as preceptors for students enrolled in Vermont nursing school programs. The Agency will distribute the funds to hospitals employing nurses who provide student preceptor supervision based on the number of preceptor hours to be provided, at a rate of \$5.00 per preceptor hour, or a lesser hourly rate if the need exceeds the available funds. The Director of Health Care Reform will convene a working group to identify ways to increase placement opportunities and provide a report based on those findings.

Health Care Employer Nursing Pipeline and Apprenticeship Program

Section 22 appropriates \$3.0 million in ARPA SFR dollars to VSAC in FY 2023 to provide grants to health care employers to establish or expand partnerships with Vermont nursing schools to create nursing pipeline or apprenticeship programs.

Vermont Nursing Forgivable Loan Incentive Program

Section 25 appropriates \$100,000 to the Department of Health in FY 2023 to establish a Vermont Nursing Forgivable Loan Program, which provides scholarships for nursing students. Recipients agree to work as a nurse in Vermont for a minimum of one year. Scholarships are to be calculated based on financial need.

Vermont Nursing and Physician Assistant Loan Repayment Program

Section 27 appropriates \$2.0 million in General Fund dollars to the Department of Health in FY 2023 to establish and administer a loan repayment program for nurses and physician assistants in coordination with VSAC. The amount is one year of loans for every year of service as a nurse or physician assistant in the state.

Nurse Faculty Forgivable Loan and Loan Repayment Program

Section 29 appropriates \$500,000 in ARPA SFR dollars to the Department of Health in FY 2023 to create and administer a program to offer forgivable loans to nurse faculty members at a nursing school in Vermont. For each year of service as a nurse faculty member at a nursing school in Vermont, an eligible

individual receives a full academic year of forgivable loan benefit. It also provides loan repayment on behalf of individuals. The amount recipients can receive is equal to the value of one academic year of loans for every year of service as a member of the nurse faculty at a nursing school in Vermont.

Agency of Human Services; Health Care Workforce Data Center

Section 32 appropriates \$1.0 million in ARPA SFR dollars to the Office of Health Care Reform in the Agency of Human Services in FY 2023 to establish and operate the statewide Health Care Workforce Data Center. This program is established to enhance the State's public health data systems, respond to the COVID-19 public health emergency, and improve COVID-19 mitigation and prevention efforts.

Agency of Human Services; Position

Section 34 appropriates \$170,000 in General Fund dollars in FY 2023 to the Agency of Human Services, Office of Health Care Reform for one classified, three-year limited-service position as Health Care Workforce Coordinator at AHS. The coordinator will focus on building educational, clinical, and housing partnerships and support structures to increase and improve health care workforce training, recruitment and retention. \$120,000 is for personal services and \$50,000 is for operating expenses.

Pilot Program: Positions Embedded within Recovery Centers

Section 38 appropriates \$1.29 million in FY 2023 in General Fund dollars to the Department for Disabilities, Aging and Independent Living's Division of Vocation Rehabilitation to develop and implement a two-year pilot program that embeds 15 FTEs limited-service positions within 12 recovery centers across the state. \$540,000 funds 2.5 FTEs at each of two geographically diverse recovery centers. \$75,000 funds one FTE to serve as employment support counselor at each of the 10 remaining recovery centers.

Credential of Value Goal; Public Private Partnership

Section 39 appropriates \$150,000 in General Fund dollars to VSAC in FY 2023 to fund the work of Advance Vermont to increase awareness of postsecondary education and training, promote a broad understanding of the public good and value in achieving the State's goal for 70 percent of working-age Vermonters to hold a credential of value by 2025.

Vermont Serve, Learn, and Earn Program

Section 40 appropriates \$2.0 million in FY 2023 in General Fund dollars to the Department of Forests, Parks and Recreation for capital and operating needs of groups participating in the Vermont Serve, Learn and Earn Program. The Program creates meaningful paid service and learning opportunities for young adults.

Vermont Forest Future Strategic Roadmap

Section 45 appropriates \$250,000 in General Fund dollars to the Department of Forests, Parks and Recreation in FY 2023 to establish a two-year contract for the development of the Vermont Forest Future Strategic Roadmap. The roadmap is meant to strengthen, modernize, promote, and protect the forest products sector in the State.

VEDA Short-term Forgivable Loan Program

Section 52 of the bill appropriates \$19.0 million in ARPA SFR funds to the Vermont Economic Development Authority in FY 2022 to operate the VEDA Short-Term Forgivable Loan Program. Eligible borrowers must have fewer than 500 employees located in Vermont and must identify economic harm caused by the COVID-19 pandemic. Economic harm will be measured by a material decline in annual adjusted net operating income from before the COVID-19 pandemic to after it.

To be eligible for a loan, a business needs to have experienced a 25 percent reduction in its adjusted net operating income in 2020 and 2021 combined when compared to 2019. Further, at least 50 percent of the

reduction in net operating income must have occurred in 2021.

The Agency will consider previous State or federal assistance in connection with the pandemic, reasonable owner's compensation, noncash expenses, and other adjustments deemed appropriate. Loaned amounts will be used for eligible fixed or operating expenses, and the loan is not to exceed the lesser of \$200,000, six months of eligible cost, or the amount of cumulative decline in adjusted net operating income in 2020 and 2021. VEDA will consult with the Joint Fiscal Office to establish guidelines.

Creative Economy Grants

Section 52 appropriates \$9.0 million in ARPA SFR in FY 2022 to the Vermont Arts Council to provide grants for monthly operating costs, including rent, mortgage, utilities, and insurance to creative economy businesses and nonprofits. The grants are meant to help these businesses recover from financial losses incurred due to the COVID-19 pandemic.

Community Recovery and Revitalization Grant Program

Section 52 appropriates \$10.2 million in General Fund dollars in FY 2023 to the Agency of Commerce and Community Development for the Community Recovery and Revitalization Grant Program. As described in the bill, this program builds on and replaces the Capital Investment Grant Program created in Act 74 of 2021. The Agency will award grants to make investments to retain and expand existing businesses and nonprofit organizations, attract new businesses and nonprofit organizations, and support job creation. Projects in regions and communities that have experienced stagnant or declining grand lists will be given preference.

To be eligible for the program, applicants must be located within the state and can be for-profit, nonprofit, or municipal entities. The applicant must demonstrate that the project has community and regional support; that grant funding is needed to complete the project; that they are leveraging additional sources of funding from local, State or federal economic development programs; and an ability to manage the project. State and locally government operated businesses, businesses with 20 or more locations, and publicly traded companies are ineligible for grants. Grants cannot exceed the lesser of \$1.0 million or 20 percent of the total project cost.

The bill removes the net fiscal impact data model from the program established in Act 74 for the Capital Investment Program and instead requires that the Agency of Commerce and Community Development develop guidelines in coordination with the Joint Fiscal Office and reviewed by the Joint Fiscal Committee. The Agency may also designate one or more sectors for priority consideration in the application process including arts and culture, travel, lodging, tourism, agriculture, and childcare.

Restaurants and Farmers Feeding the Hungry Program

Section 52 also appropriates \$1.8 million in General Fund dollars in FY 2023 to the Agency of Commerce and Community Development to grant to Southeastern Vermont Community Action for the Restaurants and Farmers Feeding the Hungry Program, known as Everyone Eats. The grant will provide State funds to match Federal Emergency Management Agency (FEMA) funds available for the program.

COVID-19-Related Paid Leave Grant Program

Section 54a establishes the COVID-19-Related Paid Leave Grant Program in the Department of Financial Regulation. The Department will administer and award grants to employers to reimburse part of the cost of providing COVID-19-related paid leave provided to employees during calendar year 2022. Grants also may be used to reimburse employers for unpaid leave for COVID-19-related reasons.

\$16.5 million is appropriated from ARPA SFR funds to the Department of Financial Regulation in FY 2023; not more than seven percent of that appropriation may be used for expenses related to program

administration and outreach. Reimbursement of COVID-19-related paid leave or unpaid leave is equal to 67 percent of the greater of minimum wage or the employee's regular hourly wage times the number of hours reimbursed. The number of hours reimbursed cannot exceed the lesser of 80 hours or two times the employee's average weekly hours. The maximum hourly reimbursement for an employee cannot exceed \$27.50.

Allocations

Section 13 of the bill establishes a two-year pilot program through the Department of Labor in consultation with the Agency of Education to design and implement the Secondary Student Industry-Recognized Credential Pilot Program. The program will make funding available to eligible students to take an eligible adult career technical education course. Students will be able to apply for the funding through an application process if they are a Vermont resident attending a Vermont public school or independent secondary school that is eligible for public funding, they have completed grade 11 and have not received a high school diploma, and if their secondary school and regional CTE center determine that they are prepared to succeed in the course, meet the prerequisites for the course and have exhausted other sources of funding prior to submitting their application. The bill authorizes the Department of Labor to spend up to \$100,000 of the funds appropriated to it in the FY 2023 budget if funds are not made available through other sources.

Tax Credits

Downtown and Village Center Tax Credit Program

The bill appropriates \$2.7 million in General Fund dollars in FY 2023 to the Downtown and Village Center Tax Credit Program to be used in fiscal years 2023 and 2024 to increase the amount of tax credits that can be awarded to qualified projects. This means that over the course of two years an extra \$2.7 million can be awarded in the form of tax credits in the program and not that \$2.7 million extra can be awarded each year. The current amount of credits that can be awarded annually is \$3.0 million and is a tax expenditure that reduces revenues to the General Fund. The \$2.7 million appropriation will offset the corresponding increase in credits that can be awarded.

The bill also allows for \$2.0 million in credits to be awarded to qualified projects in Neighborhood Development Areas (NDA) over the course of fiscal years 2023 and 2024. That is \$2.0 million over the course of two years and not \$2.0 million per year.

Future Obligations

Unemployment Insurance Benefits

Section 55b increases the weekly unemployment benefit by \$25 beginning July 1, 2025 and continuing until \$100,000,000 in additional benefits have been paid out relative to the formula set out in 21 V.S.A. § 1338(e) on June 30, 2025.

Appendix

Section	Program	New Appropriations Amount	Current Source	Fiscal Year
1	Immediate Strategies and Funding for Expanding the Labor Force; Increasing the Number of Participants and Participation Rates	\$2,500,000	General Fund	2023
		\$500,000	ARPA SFR	2023
		\$387,000	General Fund	2023
4	Investment in the Up-Skilling of Private Sector Employers to Support the Evolution of Business and Organizational Models	\$250,000	General Fund	2023
