

**Submitted Questions and Answers Regarding the
Request for Proposals (RFP) for**

**THE FUNDING AND GOVERNANCE STRUCTURES OF CAREER
TECHNICAL EDUCATION IN VERMONT**

Re-Issued August 22, 2022

Announcement and Response to submitted questions in order of receipt

Questions submitted September 9, 2022

1st set of submitted questions

1. *What is the anticipated budget for this project?*

There is no pre-specified budget for this project. We look forward to reviewing your proposal.

2. *Are site visits preferred or required for the project's scope? If so, can JFO provide an estimate of how frequently the selected vendor is expected to travel in order to fulfill their deliverables?*

Depending on the vendor's proposal, site visits may be necessary to accomplish the goals of the project. In addition, there will be legislative testimony required as part of the project. While we prefer presentations to legislative committees to be in-person, accommodations can be made if this option is unavailable. If possible, please provide an estimated travel budget for core team members to spend as many as three days in Vermont.

3. *JFO expresses a preference for the "bidder's response content and format for documentation to be the contract and attachments, the RFP, and the contractor's response and amendments" on page five (5) of the RFP document, under provision "g" of Section eight (8) "General Requirements." Please clarify if this means the bidder must submit their offer in the following sequence...*

Specifics on the bidder response are detailed on page 5 section 9. There is no specific order required.

4. *Please also indicate if the Issuer expects these documents to be integrated into a single PDF document or if we should submit them as six (6) individual PDF documents in our email.*

There is no specified or preferred format. The response can be submitted in the format that is most appropriate to the vendor.
