

Who does what in Vermont health reform?

The **Agency of Administration** is responsible for coordination of health care reform efforts across state government. At the core of these efforts is implementation of the state's universal, publicly funded health care program, called Green Mountain Care, as called for in Act 48. The Director of Health Care Reform within the Agency is responsible for proposing the benefit design and financing plan for Green Mountain Care, applying for the necessary waivers from the federal government, and serving as liaison to the Green Mountain Care Board.

The **Green Mountain Care Board** is an independent board created by Act 48 charged with ensuring that changes in the health system improve quality while stabilizing costs

The **Department of Vermont Health Access** is responsible for administering and operating Vermont's publicly funded health insurance programs

The **Vermont Health Information Technology Plan** is the implementation of an integrated electronic health information infrastructure for the sharing of electronic health information among health care facilities, health care professionals, public and private payers, and patients.

The **Vermont Health Care Innovation Project** uses federal State Innovation Model (SIM) grant funds to support improvements in the state's health care system
