

**Public Service Department Expenditures  
Related to Proceedings  
At the  
Federal Energy Regulatory Commission  
For the period  
April 1, 2009 through June 30, 2009**

**General Description of Activity**

The Department takes action at FERC to protect the interest of Vermont ratepayers in many different proceedings. We have FERC counsel on contract to monitor general FERC actions and proceedings and to also represent Vermont's interests in particular proceedings. For example, the Department has been active at FERC in ensuring fairness in cost allocations for utility projects and in ensuring Vermont's interests are represented in New England transmission projects. The issues vary from quarter to quarter but it is crucial to Vermont consumers that the Public Service Department intervenes at FERC when necessary to ensure that the costs flowing back to Vermont ratepayers as a result of FERC activity and proceedings are true, accurate, just and reasonable.
