Subject: Human Services

Hello Sen. Heath, Please take consideration to vulnerable Vermonters as major cuts to Human Service Programs. Creating cuts may look good for a short time, but it may cost more money in the long haul. Many programs for individuals with disabilities have been working with less services already do to cuts.

I understand that you have an extremely hard job that needs to be done. I hope that you will consider how much progress human services programs that help people with disabilities and seniors really mean to Vermonters. Many lives depend on services.

Thank You.
