

JFC 4/8/2015

Effective January 1, 2015, the Centers for Medicare and Medicaid Services approved the State's request to consolidate the State's previous Choices for Care demonstration waiver with the Global Commitment demonstration waiver. This change requires the net-neutral movement of funds among affected appropriations to create the necessary Global Commitment spending authority in Fiscal Year 2105.

Proposed Motion

- A) To approve the net-neutral adjustments to Fiscal Year 2015 appropriations as presented, and
- B) To recommend inclusion in the current budget bill language that allows the necessary net neutral adjustments in July 2015 for Fiscal Year 2106.
