General Description of Activity

The Department takes action at FERC to protect the interest of Vermont ratepayers in many different proceedings. We had FERC counsel on contract to monitor general FERC actions and proceedings and to also represent Vermont's interests in particular proceedings. For example, the Department has been active at FERC in ensuring fairness in cost allocations for utility projects and in ensuring Vermont's interests are represented in New England transmission projects. The issues vary from quarter to quarter but it is crucial to Vermont consumers that the Public Service Department intervenes at FERC when necessary to ensure that the costs flowing back to Vermont ratepayers as a result of FERC activity and proceedings are true, accurate, just and reasonable. In Q3 FY2014, however, we moved all FERC activities in-house, and cancelled our contract with outside counsel, hence the decline in expenditures for Q3 and Q4.
