

STATE OF VERMONT JOINT FISCAL OFFICE

MEMORANDUM

To:Joint Fiscal Committee membersFrom:Daniel Dickerson, Fiscal AnalystDate:November 29, 2016Subject:Grant Request #2861- #2867

Enclosed please find seven (7) items that the Joint Fiscal Office has received from the administration.

JFO #2861 – \$170,000 grant from the Federal Transit Administration to the Agency of Transportation. The funds will be used to establish a training program for Community Health Center staff so that they may act as mobility managers to help transportation-challenged individuals schedule and attend medical appointments. Approximately \$42,500 in State matching funds would be required, which are included in the Agency's FY17 budget. [*JFO received 11/28/16*]

JFO #2862 – \$480,000 grant from Federal Transit Administration to the Agency of Transportation. The grant will be used by the Agency to develop a statewide trip planner to include flexible or demand-driven routes, as well as hail-a-ride and other non-fixed route services , which would be incorporated into mobility applications. Approximately \$120,000 in State matching funds would be required, which are included in the Agency's FY17 budget. [*JFO received 11/28/16*]

JFO #2863 – \$13,000 grant from Vermont Birth to Five to the Agency of Education. The funds will be used to hire temporary staff to process license applications for early childhood educators to meet full-licensing requirements under Act 166. The Agency has experienced an unexpectedly high level of Pre-K applicants and the additional staff would help reduce the backlog and meet Act 166 deadlines.

[JFO received 11/28/16]

JFO #2864 – \$30,000 grant from the Trust for Public Land to the Vermont Dept. of Forests, Parks and Recreation. The funds would be used to pay for stewardship planning and improvements to the 2,085 acres that were recently acquired to expand Camel's Hump State Park. The funded activities would include trailhead parking, replacing culverts, developing signage, improving roads and trails, performing natural resource inventories and public involvement events. [*JFO received 11/28/16*]

JFO #2865 – \$15,000 grant from the Vermont Ski Areas Association to the Agency of Agriculture, Food and Markets. The funds serve as a donation to support the Working Lands Fund.

The actual grant amount will be between \$15,000 and \$20,000 as stated in the Association's award letter. [*JFO received* 11/28/16]

JFO #2866 – \$10,000 grant from Advocates for Youth to the Agency of Education. The funds would be used to pay for training materials and technical assistance provided to Vermont teachers for the improvement of sexual health education in the State. [*JFO received 11/28/16*]

JFO #2867 – \$100,000 grant from Vermont Technical College (VTC) (as a sub-grant of federal funds) to the Department of Economic Development. The funds will be used to pay for existing staff within the Department to dedicate time to working with employers to identify needed skills in order to create pathways to employment. This sub-grant is part of a \$4 million grant received by VTC from the U.S. Department of Labor under a project titled the *Strengthening Workforce Families Initiative*. The awarded funds will be allocated to the Department in \$25k increments from State FY 2017 through FY 2020. [*JFO received 11/28/16*]

Please review the enclosed materials and notify the Joint Fiscal Office (Daniel Dickerson at (802) 828-2472; <u>ddickerson@leg.state.vt.us</u>) if you have questions or would like an item held for legislative review. Unless we hear from you to the contrary by <u>December 16, 2016</u> we will assume that you agree to consider as final the Governor's acceptance of these requests.

| DATE: | November 17, 2016 |
| RE: | AA-1 Request for Acceptance, Donation from the Trust for Public Land |

The Department of Forests, Parks and Recreation is seeking acceptance of a \$30,000 donation from the Trust for Public Land to assist the Department with priority management and stewardship needs associated with the Dowsville Forest property, a 2,085 acre parcel located in the town of Duxbury.

Attached please find the following documents:

- AA-1 Form
- Notice of the Donation
- Responses to the Standard Questions for AA-1 Grant Approval

Please let me know if we can provide additional information. Thank you for your consideration.

18 2016

STATE OF VERMONT REQUEST FOR GRANT (*) ACCEPTANCE (Form AA-1)

| 7. Grant Period: Fro | om: | To: | | | | |
| 8. Purpose of Grant: The purpose of this donation is to provide the Department with additional supplemental funding to assist with priority management and stewardship needs associated with the recently acquired Dowsville Forest property. This is the second of two donations from the Trust for Public Land for this purpose (the first donation of \$20,000 was approved this past spring through Joint Fiscal approval #2817). The Department closed on the Dowsville Forest property this past spring. Dowsville Forest is a 2085-acre parcel located in the Town of Duxbury that is now a part of Camel's Hump State Park. 9. Impact on existing program if grant is not Accepted: Without this funding, the Department will be forced to delay making additional improvements to the transportation/recreation infrastructure on the property that are an immediate priority including construction of visitor parking, replacement of failed culverts, and other road and trail improvements. Such delay will negatively impact flood resiliency and will make the existing road and trail network more vulnerable to significant damage during flood events. The road network on this property is very popular with mountain bikers, snowmobilers, hikers and backcounty skiers. It's important that we continue to take steps to upgrade the transportation network as it will preserve recreational access and will reduce future maintenance costs. Additionally, without this funding, the Department would have to delay development of a long range | | | | | | |

Kate Willard, Lands Administration Section Chief

Department of Forests, Parks and Recreation Agency of Natural Resources 1 National Life Drive, Davis 2 Montpelier, Vermont 05602

Re: Second Stewardship Grant in connection with the Dowsville Headwaters Forest Legacy Project in Duxbury, VT

Dear Kate,

The Trust for Public Land is pleased to make an additional grant of \$30,000 to the State of Vermont ("<u>State</u>"), in conjunction with a previous \$15,000 gift committed on March 24, 2016 and a \$5,000 gift from Forecastle Timber LLC, by means of the enclosed check of \$30,000 made payable to the State of Vermont, Department of Forests, Parks and Recreation (the "<u>Grant Funds</u>"). This grant is being made to the State in recognition of its acceptance, as The Trust for Public Land's nominee, of 2,085 acres of land in Duxbury, Vermont as an addition to Camel's Hump State Park. The Grant Funds shall be used for the purposes of managing the property and improving recreation infrastructure on the aforesaid property. Pursuant to the provisions of 3 V.S.A. § 2807, the State may commingle the Grant Funds with its other funds in the facilities trust fund for investment purposes.

TPL is pleased to be able to support the State's Forest Legacy Program and the protection of Dowsville Headwaters in this fashion.

Sincerely,

Late Ukmer

Kate Wanner Project Manager The Trust for Public Land

Standard Questions for AA-1 Grant Approval

For Grant Approval Requests:

- 1. Are there any state matching requirements or contributions? No.
- 2. Is the State already performing the function for which the funds are intended? The Department performs similar work on other state lands but is severely restricted by budget limitations. The Department has received only \$179,000 in funding for forest highway maintenance for the last couple of years. This amount does not adequately address priority road improvement needs for the Department's several hundred miles of existing state park and state forest highways and leaves nothing to address other infrastructure and stewardship needs associated with new acquisitions.
- 3. After the term of the grant expires, what is the intent for the underlying activity? While there is no grant term or period associated with these funds, we expect that these funds will be used address priority stewardship needs on the Dowsville Forest parcel over the next couple of years. Does the grant funded activity cease to exist? State lands stewardship is an ongoing need for all department lands including the Dowsville Forest property. Will the state be asked to assume financial responsibility? Once some of the major infrastructure and stewardship needs are addressed with this grant, the Department will assume the routine, ongoing stewardship costs for this property as budgets allow.
- 4. What are the measurements that are going to be used to evaluate the effectiveness of the expenditure? Effectiveness can be measured by the number of failed or undersized culverts that are replaced or upgraded, number of water bars installed, number of other stewardship projects completed, number of recreationists that use the property.
- 5. How will the grant funds be expended? Funding will be used on stewardship and planning related activities including but not limited to replacing undersized and failed culverts, establishing trailhead parking area(s), development and installation of signing, road and trail improvements, natural resource inventories and assessments, public involvement activities. What is the budget for the grant funds, including all funding sources, for the duration of the grant? All of the donated funding will be used for these purposes.
- 6. What entities are collaborating on this grant; departments, community organizations? This

VERMONT

grant is being provided to the Department by the Trust for Public Lands which has partnered with the Department on the acquisition of the Dowsville Forest property. The Department will be working closely with the various user groups including mountain bikers, snowmoibilers, backcountry skiers, and others that have supported this acquisition.

7. What is the intended staffing level for the grant funded activity? Staffing levels will not change as a result of this donation.
