RE: Expedited Review of Monies Associated with the Public Service Board’s Order Regarding Weatherization

DATE: October 11, 2012

I am writing to request expedited review by the Joint Fiscal Committee of the monies to be conveyed by the Green Mountain Power Corporation (GMP) to the Department for Children and Families’ Office of Economic Opportunity (OEO). The Agency of Human Services, where the Department is housed, believes that expedited consideration is warranted under these circumstances.

The Public Service Board’s Docket No. 7770 (Docket) required GMP to invest $6 million in Vermont’s Weatherization Program before December 1, 2012, and at least an additional $4 million in the Program before December 1, 2013. See Docket at page 161 at paragraph 55. As a result, GMP and the Department have engaged in discussions and drafted a Weatherization Services Agreement that describes the responsibilities of each party regarding the acquisition of the funds and the resulting weatherization projects funded by these monies. These projects will be overseen by the Department’s OEO as a part of its home weatherization assistance program. These efforts are compatible with OEO’s charge set out in 33 V.S.A. § 2501 et seq.

Expedited review reflects the Public Service Board’s views. Regarding the $10 million the Board wrote: “[I]mmediate approval of these expenditures will enable the investments to be made earlier than they could be if they needed to be reviewed by stakeholders first, and because of the time value of money, earlier investments provide greater benefits to CVPS customers.” See Docket at p. 136. In short, by acquiring these funds as quickly as possible, OEO will have additional time to tackle weatherization projects that will result in warmer homes for Vermonters.

Re: Acceptance of Funds related Public Service Board Docket No. 7770

Please accept this memorandum and accompanying documentation as a request for approval to accept funds ordered in the above referenced Public Service Board Docket No. 7770: to wit, $10,000,000 to be paid in two installments of $6,000,000 on or before December 1, 2012, and $4,000,000 to be paid on or before December 1, 2013. These funds are intended to provide Low-Income Weatherization services to residents of what is referred to in the docket as the “CVPS Legacy Area”. The Docket goes on to say that these services are to be provided to clients who would not have otherwise received services “but for” this agreement.

The funds will be allocated to the existing WAP Network (5 agencies) in the form of amendments to their existing grant agreements. We are projecting that these funds will result in an additional 1,500 units being weatherized by the end of sfy 2014.

DCF/OEO is requesting 1 limited service position to manage this project and intends to use an established classification, “Energy Services Program Officer” (job specifications attached) to work in conjunction with the Weatherization Program Administrator. While it is true that OEO did not add staffing with the influx of ARRA funds, in hindsight we would have handled that differently. We were not able to maintain an optimal level of monitoring and technical assistance, and consequently there have been some issues regarding quality control that we have been dealing with since. Additionally, there were ramp up issues for ARRA that allowed a steady increase in production whereas that will not be the case with this funding. We are requesting that 1.51% of funding be allocated for this purpose and there has been no opposition from GMP or the Department of Public Service with respect to this aspect of the request. We estimate needing approximately $151,585 ($51,956 sfy 13 & $99,629 sfy 14) for that position and the training and technical assistance to be provided to the WAP Network.

Given the size of Docket No. 7770, I have attached the pertinent pages here, and we will be posting it on the DCF/OEO intranet site shortly. https://159.105.132.50/dcf/oeo/links
