MEMORANDUM

To: James Reardon, Commissioner of Finance & Management
From: Nathan Lavery, Fiscal Analyst
Date: March 18, 2011
Subject: JFO #2483, #2484, #2485, #2486, #2488, #2489, #2490, #2491

No Joint Fiscal Committee member has requested that the following items be held for review:

JFO #2483 — $194,800 grant from the U.S. Department of Housing and Urban Development (HUD) to the Vermont Department of Economic, Housing and Community Development. These funds will be used to support repair and restoration work on 13 landmark historic buildings around the state. [JFO received 2/09/11]

JFO #2484 — $561,915 grant from the U.S. Department of Health and Human Services to the Vermont Department of Health. These funds will be used to establish an evidence-based nurse home visiting program for families with young children who are identified to be “at risk” by pre-set parameters. This grant is awarded under the Affordable Care Act. One limited service position is associated with this request. [JFO received 2/09/11]

JFO #2485 — $211,840 grant from the U.S. Department of Justice to the Vermont Department of Corrections. This grant funds two modules for the Vermont Automated Notification Service (VANS) to provide services to victims of domestic violence, and expand services currently available to victims. [JFO received 2/09/11]

JFO #2486 — $420,000 grant from the U.S. Department of Health and Human Services to the Vermont Department of Health. These funds will be used to expand the capacity of the Office of Minority Health by funding one limited service position. [JFO received 2/09/11]

JFO #2488 — $1,250,000 grant from the U.S. Department of Health and Human Services to the Vermont Department of Health. These funds will be used to establish evidence-based comprehensive sexuality education for high risk and vulnerable youth in Vermont. This grant is awarded under the Affordable Care Act. One limited service position is associated with this request. [JFO received 2/14/11]
JFO #2489 — $2,803,443 grant from the U.S. Department of Health and Human Services to the Vermont Department of Children and Families. These funds will be used to implement the Learning Together Program, a parent training initiative for adolescent parents and parents-to-be.
[JFO received 2/14/11]

JFO #2490 — $48,505 grant from the U.S. Department of Agriculture to the Vermont Department Education. These funds will be used to provide grants to low-income designated schools for investment in their food service programs.
[JFO received 2/14/11]

JFO #2491 — $33,393,402 grant from the U.S. Department of Commerce to the Vermont Telecommunications Authority (VTA). These funds will be used to construct an approximately 770 mile fiber optic communications network designed to provide high-capacity connections to specific community anchor institutions.
[JFO received 2/23/11]

The Governor’s approval may now be considered final. We ask that you inform the Secretary of Administration and your staff of this action.

RE: Expedited Grant Acceptance

DATE: February 11, 2011

We hereby request expedited approval for a $33 million federal grant (Recovery Act – Vermont Fiber Link CFDA#11.557) awarded directly to the Vermont Telecommunication Authority (VTA) on July 27, 2010. The project is also supported by $0.4 million from the Gates Foundation, previously accepted by the State of Vermont, and $12 million of direct investments by Sovernet.

In accordance with 30 V.S.A. § 8062 (a) (5), the VTA is authorized to “receive and accept grants, gifts, loans, or contributions from any source subject to the provisions of 32 V.S.A. § 5.” While preparing their annual Report, the VTA discovered that they had not prepared the appropriate paperwork, nor submitted the paperwork to the Governor and the Joint Fiscal Committee as required by 32 V.S.A. § 5. While the grant was accepted by the VTA in July, no federal funds have been drawn; in fact, the federal government has called to inquire why funds have not been drawn yet.

The VTA, Finance & Management, and the Secretary of Administration hereby request that the Governor and Joint Fiscal Committee expedite approval of the required attached documentation to correct the process oversight as well as allow the VTA to begin drawing federal funds.

The VTA and Finance & Management apologize for the delay and the need for the expedited approval request. Thank you in advance for your action in this matter.

Re: Form ESR-2

Attached is completed form ESR-2 for our Recovery Act grant from the Broadband Technology Opportunities Program (BTOP). This grant has received full support from the Governor's office.

The award was accepted by the VTA on July 27, 2010. Please accept my apologies for not submitting this request sooner. We discovered the oversight during the process of preparing our Annual Report, and moved to correct it. Please note, although we have signed a grant agreement, to date there have been no draw down of grant funds. The first draw down will occur after we have received authorization through the grant approval process. We would request any expedited handling you and the Joint Fiscal Office can provide to avoid any delays in this process. Thank you for your attention to this matter.

Vermont Fiber Connect

In July 2010, the VTA was awarded a grant through the Broadband Technologies Opportunity Program (BTOP) of the U.S. Department of Commerce for the Vermont Fiber Connect (VFC) project. VFC will construct an approximately 770 mile fiber optic communications network over the next 30 months through Rutland, Bennington, Windham, Windsor, Orange, Washington, and Caledonia counties. This project is a public-private partnership between the VTA, Sovernet Communications, Vermont Department of Libraries, Vermont Department of Education, Vermont State Colleges, Vermont Law School, Vermont Department of Public Safety, Vermont Department of Information and Innovation, and the New England Telehealth Consortium. These entities represent over 340 locations which this network seeks to connect. The network will be built, owned, and operated by Sovernet Communications, and Sovernet will provide gigabit connections to the state, schools and other partners at rates similar to what they currently pay for connection that operate at a fraction of the speed. The VTA will administer the grant, provide oversight of the sub-grant to Sovernet and act as liaison to the Department of Commerce.

The federal award will provide $33.4M, and a grant from the Gates Foundation will provide $400,000 for connections to libraries. The MOU between VTA and Sovernet at the time the grant was filed anticipates that Sovernet will provide approximately $12M and the VTA approximately $2.1M. The project contained significant overlapping routes with a VTel project the Dept. of Commerce also funded. This caused significant uncertainty about the final scope of the project, and has delayed finalizing the necessary agreements between the VTA and Sovernet. However, the Dept. of Commerce has recently resolved the overlap issue in VTA’s favor and the VTA now expects to be able to finalize operational agreements with Sovernet.

Due to the objectives of BTOP, the proposed network is not designed to deliver broadband service directly to the doors of Vermont households (i.e. “last mile” coverage”), but is designed to provide high-capacity connections to specific “community anchor institutions” such as K-12 schools, health care providers, libraries, colleges, state government offices, and public safety communications networks. “Last-mile” broadband providers are potential users of this network; the high capacity this network will transport communications traffic between last-mile broadband and cellular facilities in local communities and the regional, national, and international networks to which they seek to connect.
PURPOSE & INSTRUCTIONS:
This form is intended solely as notification to the Joint Fiscal Committee of the unavoidable need to spend State funds in advance of Joint Fiscal Committee approval of grant requests and with the intent of securing a federally or privately funded grant award. Pre-notification is required for expenditures of state funds beyond basic grant application preparation and filing costs. Expenditure of these state funds does not guarantee that a grant will be awarded to the State of Vermont, or that a future grant award will be accepted by the Joint Fiscal Committee. If a grant award is subsequently received, a completed Form AA-1 Request for Grant Acceptance must be submitted to the Joint Fiscal Committee for review and approval before spending or obligating additional funds.

Project Name: Vermont Fiber Link  
Project Type: Comprehensive Community Infrastructure  
States: Vermont, New Hampshire  
Federal Award: $33,393,402

ABOUT THE PROJECT

As a small, rural state with rugged terrain, Vermont has difficulty attracting broadband Internet providers, who are often unable to build profitable business models for serving the state. Vermont Fiber Link, a public-private partnership between the Vermont Telecommunications Authority (VTA) and Sovernet Fiber Corporation, a regional communications service provider, proposes to address this problem, focusing on Vermont's key community anchor institutions, such as K-12 schools, that lack affordable high speed Internet access. The project plans to build almost 800 miles of fiber broadband infrastructure and provide direct connections at speeds of up to 1 Gbps to as many as 340 anchor institutions statewide, including nine community colleges, 12 other institutions of higher learning, 30 public safety entities, and 53 libraries.

Vermont Fiber Link proposes to:

▪ Complement the project of another BTOP-funded entity, Vermont Telephone Company, to provide robust, high speed Internet access across Vermont.

▪ Spur affordable broadband access for local consumers and businesses, including as many as 79,000 households and 13,000 businesses, along with an additional 1,400 community anchor institutions by enabling local Internet service providers to utilize the project's open network. Eight local service providers have already expressed interest in utilizing the new network to expand or enhance local broadband service to households and businesses.

▪ Significantly improve cost and quality of broadband service to Vermont’s government agencies statewide.

ORGANIZATION'S HISTORY

The Vermont Telecommunications Authority was created by the state legislature in 2007 to facilitate the establishment and delivery of mobile phone and Internet access infrastructure and services for residents and businesses throughout Vermont. VTA is focused on unserved and underserved areas and has a long-term goal of ensuring broadband and mobile phone infrastructure exists throughout the state.
