20. Required Terms and Conditions
This Agreement incorporates one or more clauses by reference, with the same force and effect as if they were given in full text, provided, however, that if the date or content of any of the clauses listed below is different from the date or content of the clause incorporated in the prime contract referenced by number herein, the date or content of the clause incorporated by said prime contract applies instead. Those clauses required by the FAR and HHSAR as flow down clauses but not listed below are deemed to apply in full force and effect to this Agreement. [FAR 52.252-02]

Upon request, the Contractor will make their full text available. The full text of a clause may be accessed electronically at this address: http://farsite.hill.af.mil/. Subcontractor agrees to flow down all applicable FAR and supplementary clauses to lower-tier subcontractors.

(a) Unless one of the exceptions provided in (b) below shall apply: the term "Contract" shall mean "Subcontract"; the term "Contractor" shall mean "Subcontractor"; the term "Government" shall mean "NASMHPD"; and the term "Contracting Officer" shall mean "NASMHPD's Contract Manager, or other authorized individual."

(b) The following instances are exceptions to the general rules as provided in (a) above:
   1. Where it is clear, by the context of the provision itself or the conditions under which it is being applied, that the reference is intended to refer to the Government, its officers or agents, or the prime contractor specifically;
   2. Where an explicit provision of this Agreement states a contrary intend;
   3. Where access to proprietary financial information or other proprietary data is required; or
   4. Where interpretation in accordance with the rules stated above would place the prime contractor in a position of violating the equivalent or related provisions of the Prime Contract whereas construction of the terms without modification would not.

(c) References in any provision incorporated by reference herein to the "Disputes" clause shall be construed as references to the "Disputes" provision contained elsewhere herein. No provision herein shall be taken to imply any direct access on the part of the Subcontractor to the Disputes process as defined in the terms of the Prime Contract.

21. Solicitation and Hiring
The Subcontractor and NASMHPD each agree that they will not directly recruit for purposes of employment any employee of the other who is assigned to work under the subcontract for one (1) year following the termination of this Subcontract, unless mutually agreed to by the two Parties.

22. Forbearance Not a Waiver
The Forbearance by NASMHPD of any right under this Subcontract or of any remedy for any breach of this Subcontract by Subcontractor shall not constitute a waiver of the right or of the breach, or of any subsequent breach of Subcontractor, or of any provision of this Subcontract.

23. Survival of Terms
Any terms or conditions providing obligations on the part of either party that are clearly intended by the parties to survive Subcontract completion or termination shall be in full force and effect until the obligation has been fulfilled.

24. Applicable Law
Federal contracting law shall govern the interpretation and application of any Federal contract or procurement or other statute, regulation, or clause that is cited, incorporated, or involved in this
Agreement. Where no Federal contracting law is applicable, the appropriate laws of the Commonwealth of Virginia shall apply.

25. **Pre-suit Mediation**
Any claim, controversy, or dispute concerning questions of fact or law, arising out of or relating to this Subcontract, its performance, or alleged breach, which is not disposed of by agreement or other means, shall be resolved through Pre-suit Mediation with the Bar Association of Virginia or other suitable and appropriate entity agreeable to both parties, and judgment upon the award rendered in such mediation may be entered in any court having jurisdiction. Pending final decision of a dispute hereunder, the Subcontractor agrees to proceed diligently with the performance of this Subcontract in accordance with the decisions of NASMHPD.

26. **Communications with the Owner**
Subcontractor agrees to communicate directly with NASMHPD and, if so expressly directed by NASMHPD, with Owner to perform this Subcontract. Progress and any problems associated with the performance of the Work should be reported to NASMHPD Project Director. The Subcontractor expressly acknowledges its primary accountability to NASMHPD and, in turn, NASMHPD accountability to Owner. The Subcontractor, therefore, agrees to notify NASMHPD immediately of any technical direction which, for whatever reasons or under whatever circumstances, is provided directly to it by Owner and which is not included in the Work.

27. **Entire Agreement**
This Subcontract Agreement contains the entire agreement of the parties hereto, and cancels and supersedes any previous understandings or agreements related to the work described herein, whether written or oral. All changes to this Agreement must be agreed to in writing and appropriately witnessed by the parties hereto.

IN WITNESS WHEREOF, the parties hereto execute this Agreement.

Specific Deliverables and Statement of Work

Background:
The Transformation Transfer Initiative (TTI) task order is the major vehicle that the Center for Mental Health Services (CMHS) has solely designed to assist State Mental Health Authorities (SMHAs) in planning for and expanding community mental health services and in meeting the challenges of system changes required as a result of health care reform. The State Mental Health Authority (SMHA) through the TTI subcontract facilitates the dissemination and adoption of specialized Technical Assistance (TA) that positions the mental health service system to support the coming health reform system change. The selected states become a resource for transformation activities, that is, provide TA within their own states and with other states by virtue of their successful initiatives and through their present and future collaboration in the TTI process.

Parameters:
This project establishes Incentives for Improving Outpatient Engagement. Subcontractor will contract with one or two community mental health providers and/or psychiatric hospitals to offer vouchers to incentivize patient attendance at first and subsequent outpatient appointments. Vouchers should be offered to patients leaving or at-risk of entering institutional care.
- Maximum spend per patient is $75, but how this total amount per person is divided is flexible as long as each individual contingency does not exceed $15;
- Voucher type is flexible depending on community demographics and generic vouchers can be used;
- Cash and lottery tickets are NOT allowed to be used as incentives; and
- Patients eligible to participate include people leaving or transitioning from:
  - State Hospitals
  - Emergency Rooms
  - Jails and Prisons
  - Homelessness
  - Crisis Service Centers

Activities:
The Vermont (VT) Department of Mental Health (DMH) seeks to:
- Ensure the continuity of care for individuals who are experiencing homelessness and have a mental illness and/or co-occurring substance use disorder who are at risk of entering, or are currently leaving, institutional care
- Utilize stipends in an attempt to expand and improve outreach efforts and success rates for engagement with Project for Assistance in Transition from Homelessness (PATH) providers and non-PATH providers
- Reduce the artificial separation among physical health, social determinants of health (such as poverty and homelessness), and mental health by incentivizing people to connect to multiple systems of care and support through a contingency management model through local homeless providers, and in the process reduce the stigma regarding mental health.

To complete this project, The Vermont Department of Mental Health will collaborate with:
- Healthcare and Rehabilitative Community MH Services
- The state mental health provider in Windsor and Windham counties (see above)
- One PATH provider Groundworks Collaborative
- Upper Valley Haven Homeless Provider.

The VT DMH will measure the success of the TTI by:
- Tracking outpatient mental health appointment attendance in HMIS
• Comparing attendance data between the two project sites with the 11 remaining counties or non-project sites in Vermont, to compare PATH sites with non-PATH sites
• Comparing pre and post-incentive attendance rates

**Deliverables:**

➢ Monthly Technical Reports
  o The subcontractor monthly reports to the subcontractor shall indicate the overall progress of the initiative, the request for specific PROJECT (or combinations of methodologies and strategies), the effectiveness of the PROJECT provided to state organizations, recommended adjustments to the initiative, as well as recommended modifications of the PROJECT and/or the applied modifications to a PROJECT methodology or strategy and its effectiveness over previous practice. The monthly reports will be submitted to NASMHPD by the 1st day of each month.

➢ Final Technical Report
  o The subcontractor will provide to NASMHPD a final report of the PROJECT provided by the subcontractor, overall initiative activities, performance measures and outcomes of all subcontractors through the end of the Agreement. This report shall include the final summary reporting of the subcontractor and identification of successful strategies and PROJECT lessons learned in the implementation of the initiative for the subcontractor. This report shall be in a format that can be a useful resource for the identification of PROJECT methodologies, strategies and Subject Matter Experts, for the Government as well as the states, in future transformational (system change) efforts. All requested edits, corrections or clarifications shall be completed and resubmitted prior to the end of the subcontract.

➢ • Final Project Report
  o Work on this project will continue after the Subcontract end date, and the submission of the Final Technical Report and subsequent final payment. Once the project comes to its natural conclusion, NASMHPD requests a Final Project Report that describes the post-award activities, the achievements made as a result of the TTI project, and the overall impact.
PAYMENT SCHEDULE

Payment Schedule: The schedule of payments is set forth below. Upon acceptance of the Work product by the Project Manager for each period as described in Attachment 1 "Statement of Work", one-eighth (1/8th) of the total Subcontract amount less a ten percent (10%) withholding will be authorized. The final payment of the amount withheld will be authorized contingent upon receipt and acceptance of the Final Technical Report. Payments under this Agreement shall not exceed the total Subcontract amount specified in Section 1, "Type of Contract".

Payments are based upon the receipt and acceptance of status reports which are due on the first of the month following the reporting period. Reports submitted after the first may or may not be processed in that month. If the report is received after the Owner has been invoiced, the report will be processed with next month’s reports. Reports received after the 5th of the month will be processed for payment with the next month’s reporting cycle.
