MEMORANDUM

To: James Reardon, Commissioner of Finance & Management
From: Nathan Lavery, Fiscal Analyst
Date: September 18, 2008
Subject: JFO #2335

No Joint Fiscal Committee member has requested that the following item be held for review:

JFO #2335 — $458,935 grant from the United States Department of Homeland Security to the Vermont Department of Public Safety. These grant monies will fund the installation of a permanent method that will open channels through ice in the Winooski River downstream from the Montpelier downtown in order to allow passage of water and reduce the rise of flood waters.

[JFO received 08/19/08]

In accordance with 32 V.S.A. §5, the requisite 30 days having elapsed since this item was submitted to the Joint Fiscal Committee, the Governor’s approval may now be considered final. We ask that you inform the Secretary of Administration and your staff of this action.

cc: Linda Morse, Administrative Assistant
    Thomas Tremblay, Commissioner
MEMORANDUM

To: Joint Fiscal Committee Members
From: Nathan Lavery, Fiscal Analyst
Date: August 20, 2008
Subject: Grant Request

Enclosed please find two (2) requests which the Joint Fiscal Office recently received from the Administration:

JFO #2334 — $69,502 grant from the United States Department of Justice to the Vermont Department of Public Safety (DPS). These grant funds will be used to expand anti-gang enforcement and prevention efforts under the Project Safe Neighborhoods initiative. DPS erroneously considered this grant to be a continuation of a previous grant, and it was not submitted for JFC approval prior to commencement of spending against the grant amount. Commissioner Reardon has attached a memorandum of explanation. Additionally, this submission includes a follow-on grant of $96,660 which would not normally come before the JFC.
[JFO received 08/19/08]

JFO #2335 — $458,935 grant from the United States Department of Homeland Security to the Vermont Department of Public Safety. These grant monies will fund the installation of a permanent method that will open channels through ice in the Winooski River downstream from the Montpelier downtown in order to allow passage of water and reduce the rise of flood waters.
[JFO received 08/19/08]

The Joint Fiscal Office has reviewed these submissions and determined that all appropriate forms bearing the necessary approvals are in order.

In accordance with the procedures for processing such requests, we ask you to review the enclosed and notify the Joint Fiscal Office (Nathan Lavery at 802/828-1488; nlavery@leg.state.vt.us or Stephen Klein at 802/828-5769; sklein@leg.state.vt.us) if you have questions or would like this item held for legislative review. Unless we hear from you to the contrary by September 2 we will assume that you agree to consider as final the Governor’s acceptance of this request.

cc: James Reardon, Commissioner

    Thomas Tremblay, Commissioner
STATE OF VERMONT
GRANT ACCEPTANCE FORM

DEPARTMENT: Public Safety          DATE: August 1, 2008

GRANT/DONATION: Montpelier Ice Jam Mitigation Project
Hazard Mitigation Grant Program FEMA-DR-1698-VT

GRANTOR/DONOR: U.S. Department of Homeland Security
FEMA Region 1

GRANT PERIOD: May 1, 2008 – May 18, 2010

AMOUNT/VALUE:
Federal Funding         $ 458,935
Local Match              $ 145,700

POSITIONS REQUESTED (LIMITED SERVICE): None

ANY ON-GOING, LONG-TERM COSTS TO THE STATE: None

COMMENTS:
Attached Form AA-1 provides details.

I recommend acceptance of this grant. DDD

DEPT. FINANCE AND MANAGEMENT:  (INITIAL)  RPM 8/15/08
SECRETARY OF ADMINISTRATION:  (INITIAL) RPM 8/15/08
SENT TO JOINT FISCAL OFFICE:  (DATE)  8/12/08

RECEIVED
AUG 19 2008
JOINT FISCAL OFFICE
STATE OF VERMONT
REQUEST FOR GRANT ACCEPTANCE
(use additional sheets as needed)

1. Agency:
2. Department: Public Safety
3. Program: Emergency Management
4. Legal Title of Grant: Hazard Mitigation Grant Program - FEMA-DR-1698-VT
5. Federal Catalog No.: 97.039
6. Grantor and Office Address:
   U.S. Department of Homeland Security
   FEMA Region 1
   99 High Street, 6th Floor
   Boston, MA 02110-2132
7. Grant Period:
   From: 5/19/2008 To: 5/18/2010
8. Purpose of Grant:
   Installation of a permanent method that will open channels through ice in the Winooski River downstream from the Montpelier downtown area. This will allow the passage of water and keep flood waters down.
9. Impact on Existing Programs if Grant is not Accepted:
   If not accepted, the site area would continue to suffer the impact of flooding events. This would include further damage to structures and the nearby roads and downtown Montpelier area.

Review Name: Judith A. Maloney  
Applicant: City of Montpelier, VT

Disaster/Emergency/Program/Project Title: FEMA-HMGP-1698
Wastewater Treatment Plant Discharge Pumping Project

Record of Environmental Consideration

Project Name/Number: FEMA-HMGP-1698-2-R  Wastewater Treatment Plant Discharge Pumping Project, Montpelier, VT

Project Location: Along the Winooski River adjacent to lower State Street, starting from the confluence of Dog River and the Winooski River to approximately 5,300 linear feet upstream ending just above the Bailey Avenue Bridge.
Latitude: N 44.256077  Longitude: -72.600425

Project Description: The City of Montpelier, VT proposes to install a permanent method of opening channels through the ice in the Winooski River downstream from the Montpelier downtown area. The purpose of opening the channels is to allow the passage of water to keep flood waters down. The technique involves installing a pumping system at the Montpelier Treatment Plant discharge manhole and a new force main extending to just upstream of the Bailey Avenue Bridge, with a total of six new discharge points along the river. The treated discharge water from the Montpelier Wastewater Plant will be pumped on to the ice to melt and break up the ice. The objective of this project is to prevent flooding damage caused by the ice jams on the river.

Documentation Requirements

☐ No Documentation Required (Review Concluded)

☐ (Short version) All consultation and agreements implemented to comply with the National Historic Preservation Act, Endangered Species Act, and Executive Orders 11988, 11990 and 12898 are completed and no other laws apply. (Review Concluded)

☐ (Long version) All applicable laws and executive orders were reviewed. Additional information for compliance is attached to this REC.

National Environmental Policy Act (NEPA) Determination

☐ Statutorily excluded from NEPA review. (Review Concluded)

☒ Categorical Exclusion - Category xvi
☐ No Extraordinary Circumstances exist.
☐ Are project conditions required? ☒ Yes (see section V) ☐ No (Review Concluded)

☐ Extraordinary Circumstances exist (See Section IV).
☐ Extraordinary Circumstances mitigated. (See Section IV comments)
☐ Are project conditions required? ☐ Yes (see section V) ☒ No (Review Concluded)

☒ Environmental Assessment required. See FONSI for determination, conditions and approval.

Comments:
Correspondence/Consultation/References: project Description, site visit. Based on information provided by the grantee, the scope of work for this project qualifies as a Categorical Exclusion (CATEX) under 44 CFR

Reviewer Name: Judith A. Maloney
Disaster/Emergency/Program/Project Title: FEMA-HMGP-1698
Applicant: City of Montpelier, VT
Wastewater Treatment Plant Discharge Pumping Project

Correspondence/Consultation/References: Project description - Determination by Peter Thomas to SHPO 4/23 e-mail and SHPO concurrence from Scott Dillon 4/23/08

B. Endangered Species Act
☒ No listed species and/or designated critical habitat present in the action area. (Review Concluded)
☐ Listed species and/or designated critical habitat present in the action area.
☐ No effect to species or designated critical habitat. (See comments for justification) (Review Concluded)
☐ May affect, but not likely to adversely affect species or designated critical habitat (FEMA determination/USFWS/NMFS concurrence on file) (Review Concluded)
☐ Likely to adversely affect species or designated critical habitat
☐ Formal consultation concluded. (Biological Assessment and Biological Opinion on file)
Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: Review by Judith Maloney, FEMA, of U.S. Fish and Wildlife Service Endangered Species web site revealed that no federally listed or proposed threatened and endangered species under the jurisdiction of the U.S. Fish and Wildlife are known to occur in the vicinity of proposed projects.

Correspondence/Consultation/References: U.S. Fish and Wildlife Service Endangered Species web site

C. Coastal Barrier Resources Act
☒ Project is not located in Coastal Barriers Resource System or Otherwise Protected Area.
☐ Project does not affect a coastal barrier within the COBRA System (regardless of in or out) (Review Concluded)
☐ Project is located in a coastal barrier system and/or affects a coastal barrier. (FEMA determination/USFWS consultation on file)
☐ Proposed action an exception under Section 3505.a.6? (Review Concluded)
☐ Proposed action not excepted under Section 3505.a.6.
Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: This project is not in or near a coastal area.
Correspondence/Consultation/References: Coastal Barrier Resources Act, N.E. maps

D. Clean Water Act
☐ Project site located outside of and would not affect any waters of the U.S. (Review Concluded)
☒ Project site located in or would affect waters, including wetlands, of the U.S.
☐ Project exempted as in kind replacement or other exemption. (Review Concluded)
☐ Project requires Section 404/401/10 permit, including qualification under Nationwide Permits.
Are project conditions required? ☒ YES (see section V) ☐ NO (Review Concluded)

Comments: Project improvements may require permits from appropriate local, state, and federal agencies. Additionally, construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act, “Best Management Practices BMP”. The Town must contact the US Army Corps of Engineers to inquire if a permit is required. The Town will need to obtain all necessary permits from relevant state agencies after the project specifications have been completed.
Correspondence / Consultation / References: Section 10 of the Rivers and Harbors Act, Section 404 of the Clean Water Act, (Re: determinations and acquisition of appropriate permits), and local Conservation Commission regulations.

E. Coastal Zone Management Act
☒ Project does not affect a coastal zone area (regardless of in or out) - (Review concluded)
☐ Project is not located in a coastal zone area - (Review concluded)
☐ Project is located in a coastal zone area and/or affects the coastal zone
☐ State administering agency does not require consistency review. (Review Concluded)
☐ State administering agency requires consistency review.
Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Record of Environmental Consideration 3 07.18.2007
Disaster/Emergency/Program/Project Title: FEMA-HMGP-1698
Wastewater Treatment Plant Discharge Pumping Project

Comments: This project is not in or near a coastal area.
Correspondence/Consultation/References: Coastal Barrier Resources Act, N.E. maps

F. Fish and Wildlife Coordination Act
☒ Project is not located in or affects a waterway/body of water. (Review Concluded)
☐ Project affects, controls or modifies a waterway/body of water.
  ☐ Coordination with USFWS conducted
  ☐ No Recommendations offered by USFWS. (Review Concluded)
  ☐ Recommendations provided by USFWS.
  Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: Review by Judith Maloney, FEMA, of U.S. Fish and Wildlife Service Endangered Species web site revealed that no federally listed or proposed threatened and endangered species under the jurisdiction of the U.S. Fish and Wildlife Service are known to occur in the vicinity of the areas of proposed projects.
Correspondence/Consultation/References: U.S. Fish and Wildlife Service Endangered Species web site

G. Clean Air Act
☒ Project will not result in permanent air emissions. (Review Concluded)
☐ Project is located in an attainment area. (Review Concluded)
☐ Project is located in a non-attainment area.
  ☐ Coordination required with applicable state administering agency.
  Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: Any emissions from construction equipment will be temporary in nature. Only minimal, temporary dust and increased emissions from construction vehicles caused by a routine construction project might occur.
Correspondence/Consultation/References: project description

H. Farmlands Protection Policy Act
☒ Project does not affect prime or unique farmland. (Review Concluded)
☐ Project causes unnecessary or irreversible conversion of prime or unique farmland.
  ☐ Coordination with Natural Resource Conservation Commission required.
  ☐ Farmland Conversion Impact Rating, Form AD-1006, completed.
  Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: No commitment of farm lands
Correspondence/Consultation/References: The project is in a forested area far from farm lands. See enclosed pictures of project area and project description.

I. Migratory Bird Treaty Act
☐ Project not located within a flyway zone. (Review Concluded)
☒ Project located within a flyway zone.
  ☒ Project does not have potential to take migratory birds. (Review Concluded)
  ☐ Project has potential to take migratory birds.
    ☔ Contact made with USFWS
    Are project conditions required? ☒ YES (see section V) ☐ NO (Review Concluded)

Comments: N/A This project will not result in the migratory taking of birds.
Correspondence/Consultation/References: The Migratory Bird Treaty Act and Executive Order 13186, project description

C. E.O. 12898 - Environmental Justice for Low Income and Minority Populations
☒ No Low income or minority population in, near or affected by the project -  (Review Concluded)
☐ Low income or minority population in or near project area
  ☐ No disproportionately high and adverse impact on low income or minority population -  (Review Concluded)
  ☐ Disproportionately high or adverse effects on low income or minority population
Are project conditions required?  ☐ YES (see section V)  ☐ NO  (Review Concluded)

Comments: Project will have no disproportionate effects on the local population.
Correspondence/Consultation/References:

III. Other Environmental Issues

Identify other potential environmental concerns in the comment box not clearly falling under a law or executive order (see environmental concerns scoping checklist for guidance).

Comments: A review of the scoping guidance indicates no other environmental concerns.
Correspondence/Consultation/References:

IV. Extraordinary Circumstances

Based on the review of compliance with other environmental laws and Executive Orders, and in consideration of other environmental factors, review the project for extraordinary circumstances.

* A “Yes” under any circumstance may require an Environmental Assessment (EA) with the exception of (ii) which should be applied in conjunction with controversy on an environmental issue. If the circumstance can be mitigated, please explain in comments. If no, leave blank.

Yes
  ☐ (i) Greater scope or size than normally experienced for a particular category of action
  ☐ (ii) Actions with a high level of public controversy
  ☐ (iii) Potential for degradation, even though slight, of already existing poor environmental conditions;
  ☐ (iv) Employment of unproven technology with potential adverse effects or actions involving unique or unknown environmental risks;
  ☐ (v) Presence of endangered or threatened species or their critical habitat, or archaeological, cultural, historical or other protected resources;
  ☐ (vi) Presence of hazardous or toxic substances at levels which exceed Federal, state or local regulations or standards requiring action or attention;

Record of Environmental Consideration  6  07.18.2007
Reviewer Name: Judith A. Taloney
Applicant: City of Montpelier, VT
Disaster/Emergency/Program/Project Title: FEMA-HMGP-1698
Wastewater Treatment Plant Discharge Pumping Project

(vii) Actions with the potential to affect special status areas adversely or other critical resources such as wetlands, coastal zones, wildlife refuge and wilderness areas, wild and scenic rivers, sole or principal drinking water aquifers;

(viii) Potential for adverse effects on health or safety;

(ix) Potential to violate a federal, state, local or tribal law or requirement imposed for the protection of the environment.

(x) Potential for significant cumulative impact when the proposed action is combined with other past, present and reasonably foreseeable future actions, even though the impacts of the proposed action may not be significant by themselves.

Comments:

V. Environmental Review Project Conditions

General comments:

1. If ground disturbing activities occur during implementation, the applicant will monitor excavation activity, and if any artifacts or human remains are found during the excavation process all work is to cease and the applicant will notify FEMA, Grantee, and SHPO/THPO.

2. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements for the abatement and disposal of lead, asbestos, and other routinely encountered hazardous substances. If there is an unusual material encountered or there is an extraordinary amount of lead, asbestos, or other routinely encountered material the applicant must contact the Grantee and the Grantee must contact FEMA. The applicant must also contact the relevant agency with authority for regulation of the material.

3. If deviations from the proposed scope of work result in design changes, the need for additional ground disturbance, additional removal of vegetation, or result in any other unanticipated changes to the physical environment, the Grantee must contact FEMA, and a re-evaluation under NEPA and other applicable environmental laws will be conducted by FEMA.

Project Conditions:

1. As long as the appropriate soil erosion/siltation control measures and the best management practices for roads and culverts (e.g. placing culvert inverts at or slightly below grade in the bed of the stream to accommodate fish passage, working during low flow summer periods, etc.) are utilized, harm to fish and wildlife will be minimized.

2. The applicant must seed, mulch, and replant any disturbed ground with native shrubs and vegetation. A special effort shall be made to plant native vegetation at higher bank elevations. Plant native vegetation at higher bank elevations.

3. Commence work during low flow period.

4. Reroute or stop the flow of water into the project site.

5. If necessary, dewater the project site.

6. Excavate unsuitable wash material from site.

7. Remove erosion control measures after the construction area has been stabilized.

The applicant must ensure that best managing practices for roads and culverts and installation of erosion control measures are utilized. Construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act's: “Best Management Practices, BMP” for erosion control during construction of this project. This includes, the applicant applying for all local, state, and federal permits and easements necessary to complete the project and obtaining these permits prior to commencement of any work. Any conditions of these permits become conditions of this grant, project, and environmental review. In accordance with FEMA Guidelines, applicants are required to comply with the federal law provisions of: the Water Pollution Control Act, as amended; Section 10 of the Rivers and Harbors Act; and Section 404 of the Clean Water Act, requirements regarding acquisition of appropriate permits or determinations from the U.S. Army Corps of Engineers (USACE) for projects funded by FEMA. All correspondence (including copies of any permits issued by USACE) regarding these determinations should be coordinated with and copies

Record of Environmental Consideration 7 07.18.2007
forwarded to FEMA. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements and/or obtain proper local, state, and federal permit concerning this project. Any conditions of this process or these regulations, laws, and policies become conditions of this grant, project, and environmental review.

Monitoring Requirements: Quarterly Reports, and final inspection of the scope of work and accounting records are required.
Project Review and Conditions Status

FEMA-DR-1698

Project Name/Number: FEMA-HMGP-1698-2-R Wastewater Treatment Plant Discharge Pumping Project, Montpelier, VT

Project Location: Along the Winooski River adjacent to lower State Street, starting from the confluence of Dog River and the Winooski River to approximately 5,300 linear feet upstream ending just above the Bailey Avenue Bridge.
Latitude: N 44.256077 Longitude: -72.600425

Project Description: The City of Montpelier, VT proposes to install a permanent method of opening channels through the ice in the Winooski River downstream from the Montpelier downtown area. The purpose of opening the channels is to allow the passage of water to keep flood waters down. The technique involves installing a pumping system at the Montpelier Treatment Plant discharge manhole and a new force main extending to just upstream of the Bailey Avenue Bridge, with a total of six new discharge points along the river. The treated discharge water from the Montpelier Wastewater Plant will be pumped on to the ice to melt and break up the ice. The objective of this project is to prevent flooding damage caused by the ice jams on the river.

Environmental Review Project Conditions

1. If ground disturbing activities occur during implementation, the applicant will monitor excavation activity, and if any artifacts or human remains are found during the excavation process all work is to cease and the applicant will notify FEMA, Grantee, and SHPO/THPO.

2. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements for the abatement and disposal of lead, asbestos, and other routinely encountered hazardous substances. If there is an unusual material encountered or there is an extraordinary amount of lead, asbestos, or other routinely encountered material the applicant must contact the Grantee and the Grantee must contact FEMA. The applicant must also contact the relevant agency with authority for regulation of the material.

3. If deviations from the proposed scope of work result in design changes, the need for additional ground disturbance, additional removal of vegetation, or result in any other unanticipated changes to the physical environment, the Grantee must contact FEMA, and a re-evaluation under NEPA and other applicable environmental laws will be conducted by FEMA.

Other Required Project Specific Conditions
1. The culvert must be constructed in such a way as to not inhibit the movement of aquatic organisms, particularly fish. The culvert invert must be placed approximately 6” in the streambed or an arch or bottomless structure must be used.

2. As long as the appropriate soil erosion/siltation control measures and the best management practices for roads and culverts (e.g. placing culvert invert at or slightly below grade in the bed of the stream to accommodate fish passage, working during low flow summer periods, etc.) are utilized, harm to fish and wildlife will be minimized.

3. The applicant must seed, mulch, and replant any disturbed ground with native shrubs and vegetation. A special effort shall be made to plant native vegetation at higher bank elevations.

4. The applicant must ensure that best managing practices for roads and culverts are utilized, and installation of erosion control. Construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act’s: “Best Management Practices, BMP” for erosion control during construction of this project. This includes, the applicant applying for all local, state, and federal permits and easements necessary to complete the project and obtaining these permits prior to commencement of any work. Any conditions of these permits become conditions of this grant, project, and environmental review. In accordance with FEMA Guidelines, applicants are required to comply with the federal law provisions of: the Water Pollution Control Act, as amended; Section 10 of the Rivers and Harbors Act; and Section 404 of the Clean Water Act, requirements regarding acquisition of appropriate permits or determinations from the U.S. Army Corps of Engineers (USACE) for projects funded by FEMA. All correspondence (including copies of any permits issued by USACE) regarding these determinations should be coordinated with and copies forwarded to FEMA. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements and/or obtain proper local, state, and federal permit concerning this project. Any conditions of this process or these regulations, laws, and policies become conditions of this grant, project, and environmental review.

Monitoring Requirements:
Quarterly Reports and final inspection of scope of work and accounting records are required.

Funding
Total Cost of Project: $582,800
Federal Share: $437,100
Applicant Share: $145,700

Period of Performance
This project must be complete by: 6/30/10

- All permits must be obtained and forwarded to FEMA before any work begins.

- Any deviation from this scope of work, conditions or funding must be approved in advance, in writing.

- Applicants must comply with HMGP requirements, grants management procedures in 44 CFR Part 13, the grant agreement, and applicable Federal State, and laws and standards.
Memo

Re: Request for Grant Acceptance

Attached you will find a Request for Grant Acceptance for the federal funding awarded to the State of Vermont for the Presidential declaration of major disaster # FEMA-DR-1698-VT.

If you have any questions, please contact me at 802-241-5574 or email at tbedard@dps.state.vt.us.

Thank you.
MEMORANDUM

To: Representative Donna Sweaney
From: Nathan Lavery
Date: August 20, 2008
Subject: JFO #2335 (Ice Jam Mitigation Project)

Representatives Michael Obuchowski and Shap Smith asked that I forward to you a copy of the enclosed request and cover memo. They are requesting you provide them with your observations regarding the enclosed item.

cc: Rep. Michael Obuchowski
    Rep. Shap Smith
    Stephen Klein
STATE OF VERMONT
GRANT ACCEPTANCE FORM

DEPARTMENT: Public Safety
DATE: August 1, 2008

GRANT/DONATION: Montpelier Ice Jam Mitigation Project
Hazard Mitigation Grant Program FEMA-DR-1698-VT

GRANTOR/DONOR: U.S. Department of Homeland Security
FEMA Region 1

GRANT PERIOD: May 1, 2008 — May 18, 2010

AMOUNT/VALUE:
Federal Funding $ 458,935
Local Match $ 145,700

POSITIONS REQUESTED (LIMITED SERVICE): None

ANY ON-GOING, LONG-TERM COSTS TO THE STATE: None

COMMENTS:
Attached Form AA-1 provides details.

I recommend acceptance of this grant. 

DEPT. FINANCE AND MANAGEMENT: (INITIAL) 8/5/08
SECRETARY OF ADMINISTRATION: (INITIAL) 8/5/08
SENT TO JOINT FISCAL OFFICE: (DATE) 8/12/08

RECEIVED
AUG 19 2008
JOINT FISCAL OFFICE
STATE OF VERMONT
REQUEST FOR GRANT ACCEPTANCE
(form additional sheets as needed)
(Rev. 9-90)

1. Agency: 
2. Department: Public Safety 
3. Program: Emergency Management 
4. Legal Title of Grant: Hazard Mitigation Grant Program - FEMA-DR-1698-VT 
5. Federal Catalog No.: 97.039 
   FEMA Region 1 
   99 High Street, 6th Floor 
   Boston, MA 02110-2132 
8. Purpose of Grant: (attach additional sheets if needed) 
   Installation of a permanent method that will open channels through ice in the Winooski River downstream from the Montpelier downtown area. This will allow the passage of water and keep flood waters down. 
9. Impact on Existing Programs if Grant is not Accepted: 
   If not accepted, the site area would continue to suffer the impact of flooding events. This would include further damage to structures and the nearby roads and downtown Montpelier area. 
10. Budget Information: 
    | (1st State FY) | (2nd State FY) | (3rd State FY) |

Record of Environmental Consideration

Project Name/Number: FEMA-HMGP-1698-2-R Wastewater Treatment Plant Discharge Pumping Project, Montpelier, VT

Project Location: Along the Winooski River adjacent to lower State Street, starting from the confluence of Dog River and the Winooski River to approximately 5,300 linear feet upstream ending just above the Bailey Avenue Bridge.
Latitude: N 44.256077 Longitude: -72.600425

Project Description: The City of Montpelier, VT proposes to install a permanent method of opening channels through the ice in the Winooski River downstream from the Montpelier downtown area. The purpose of opening the channels is to allow the passage of water to keep flood waters down. The technique involves installing a pumping system at the Montpelier Treatment Plant discharge manhole and a new force main extending to just upstream of the Bailey Avenue Bridge, with a total of six new discharge points along the river. The treated discharge water from the Montpelier Wastewater Plant will be pumped on to the ice to melt and break up the ice. The objective of this project is to prevent flooding damage caused by the ice jams on the river.

Documentation Requirements

☐ No Documentation Required (Review Concluded)  
☐ (Short version) All consultation and agreements implemented to comply with the National Historic Preservation Act, Endangered Species Act, and Executive Orders 11988, 11990 and 12898 are completed and no other laws apply (Review Concluded)  
☒ (Long version) All applicable laws and executive orders were reviewed. Additional information for compliance is attached to this REC.

National Environmental Policy Act (NEPA) Determination

☐ Statutorily excluded from NEPA review. (Review Concluded)  
☒ Categorical Exclusion - Category xvi  
☐ No Extraordinary Circumstances exist. Are project conditions required? ☒ Yes (see section V) ☐ No (Review Concluded)  
☐ Extraordinary Circumstances exist (See Section IV). Are project conditions required? ☒ Yes (see section V) ☐ No (Review Concluded)  
☐ Extraordinary Circumstances mitigated. (See Section IV comments) Are project conditions required? ☒ Yes (see section V) ☐ No (Review Concluded)  
☐ Environmental Assessment required. See FONSI for determination, conditions and approval.

Comments:  
Correspondence/Consultation/References: project Description, site visit. Based on information provided by the grantee, the scope of work for this project qualifies as a Categorical Exclusion (CATEX) under 44 CFR.

1. Compliance Review for Environmental Laws (other than NEPA)

A. National Historic Preservation Act
☐ Not type of activity with potential to affect historic properties. (Review Concluded)
☐ Applicable executed Programmatic Agreement. Otherwise, conduct standard Section 106 review.
   ☐ Activity meets Programmatic Allowance
   Are project conditions required? ☐ Yes (see section V) ☐ No (Review Concluded)

HISTORIC BUILDINGS AND STRUCTURES
☒ No historic properties 50 years or older in project area. (Review Concluded)
☐ Building or structure 50 years or older in project area and activity not exempt from review.
   ☐ Determination of No Historic Properties Affected (FEMA finding/SHPO/THPO concurrence on file)
   Are project conditions required? ☐ Yes (see section V) ☐ No (Review Concluded)
   ☐ Determination of Historic Properties Affected (FEMA finding/SHPO/THPO concurrence on file)
     ☐ Property a National Historic Landmark and National Park Service was provided early notification
during the consultation process. If not, explain in comments
     ☐ No Adverse Effect Determination (FEMA finding/SHPO/THPO concurrence on file).Are project conditions required? ☐ Yes (see section V) ☐ No (Review Concluded)
     ☐ Adverse Effect Determination (FEMA finding/SHPO/THPO concurrence on file)
       ☐ Resolution of Adverse Effect completed. (MOA on file)
       Are project conditions required? ☐ Yes (see section V) ☐ No (Review Concluded)

ARCHEOLOGICAL RESOURCES
☐ Project affects only previously disturbed ground. (Review Concluded)
☒ Project affects undisturbed ground.
   ☐ Project area has no potential for presence of archeological resources
     ☐ Determination of no historic properties affected (FEMA finding/SHPO/THPO concurrence or consultation on file). (Review Concluded)
   ☐ Project area has potential for presence of archeological resources
     ☐ Determination of no historic properties affected (FEMA finding/SHPO/THPO concurrence on file)
     Are project conditions required? ☐ Yes (see section V) ☐ No (Review Concluded)
     ☐ Determination of historic properties affected
       ☐ NR eligible resources not present (FEMA finding/SHPO/THPO concurrence on file).Are project conditions required? ☐ Yes (see section V) ☐ No (Review Concluded)
       ☐ NR eligible resources present in project area. (FEMA finding/ SHPO/THPO concurrence on file)
       ☐ No Adverse Effect Determination. (FEMA finding/ SHPO/THPO concurrence on file)Are project conditions required? ☐ Yes (see section V) ☐ No (Review Concluded)
       ☐ Adverse Effect Determination. (FEMA finding/ SHPO/THPO concurrence on file)
       ☐ Resolution of Adverse Effect completed. (MOA on file)
       Are project conditions required? ☐ Yes (see section V) ☐ No (Review Concluded)

Comments: Site visit on 4/21/08
B. Endangered Species Act

☒ No listed species and/or designated critical habitat present in the action area. (Review Concluded)
☐ Listed species and/or designated critical habitat present in the action area.
☐ No effect to species or designated critical habitat. (See comments for justification) (Review Concluded)
☐ May affect, but not likely to adversely affect species or designated critical habitat (FEMA determination/USFWS/NMFS concurrence on file) (Review Concluded)
☐ Likely to adversely affect species or designated critical habitat. (Biological Assessment and Biological Opinion on file)
☐ Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: Review by Judith Maloney, FEMA, of U.S. Fish and Wildlife Service Endangered Species web site revealed that no federally listed or proposed threatened and endangered species under the jurisdiction of the U.S. Fish and Wildlife are known to occur in the vicinity of the proposed projects.

Correspondence/Consultation/References: U.S. Fish and Wildlife Service Endangered Species web site

C. Coastal Barrier Resources Act

☒ Project is not located in Coastal Barriers Resource System or Otherwise Protected Area.
☐ Project does not affect a coastal barrier within the COBRA System (regardless of in or out) (Review Concluded)
☐ Project is located in a coastal barrier system and/or affects a coastal barrier. (FEMA determination/USFWS consultation on file)
☐ Proposed action an exception under Section 3505.a.6? (Review Concluded)
☐ Proposed action not excepted under Section 3505.a.6.
☐ Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: This project is not in or near a coastal area.

Correspondence/Consultation/References: Coastal Barrier Resources Act, N.E. maps

D. Clean Water Act

☒ Project site located outside of and would not affect any waters of the U.S. (Review Concluded)
☐ Project site located in or would affect waters, including wetlands, of the U.S.
☐ Project exempted as in kind replacement or other exemption. (Review Concluded)
☐ Project requires Section 404/401/10 permit, including qualification under Nationwide Permits.
☐ Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: Project improvements may require permits from appropriate local, state, and federal agencies. Additionally, construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act, “Best Management Practices BMP”. The Town must contact the US Army Corps of Engineers to inquire if a permit is required. The Town will need to obtain all necessary permits from relevant state agencies after the project specifications have been completed.

Correspondence / Consultation / References: Section 10 of the Rivers and Harbors Act, Section 404 of the Clean Water Act, (Re: determinations and acquisition of appropriate permits), and local Conservation Commission regulations.

E. Coastal Zone Management Act

☒ Project does not affect a coastal zone area (regardless of in or out) - (Review concluded)
☐ Project is not located in a coastal zone area – (Review concluded)
☐ Project is located in a coastal zone area and/or affects the coastal zone
☐ State administering agency does not require consistency review. (Review Concluded)
☐ State administering agency requires consistency review.
☐ Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)
Comment: This project is not in or near a coastal area.
Correspondence/Consultation/References: Coastal Barrier Resources Act, N.E. maps

F. Fish and Wildlife Coordination Act
☒ Project is not located in or affects a waterway/body of water. (Review Concluded)
☐ Project affects, controls or modifies a waterway/body of water.
☐ Coordination with USFWS conducted
☐ No Recommendations offered by USFWS. (Review Concluded)
☐ Recommendations provided by USFWS.
Are project conditions required? ☑ YES (see section V) ☐ NO (Review Concluded)

Comment: Review by Judith Maloney, FEMA, of U.S. Fish and Wildlife Service Endangered Species web site revealed that no federally listed or proposed threatened and endangered species under the jurisdiction of the U.S. Fish and Wildlife are known to occur in the vicinity of the areas of proposed projects.
Correspondence/Consultation/References: U.S. Fish and Wildlife Service Endangered Species web site

G. Clean Air Act
☒ Project will not result in permanent air emissions. (Review Concluded)
☐ Project is located in an attainment area. (Review Concluded)
☐ Project is located in a non-attainment area.
☐ Coordination required with applicable state administering agency.
Are project conditions required? ☑ YES (see section V) ☐ NO (Review Concluded)

Comment: Any emissions from construction equipment will be temporary in nature. Only minimal, temporary dust and increased emissions from construction vehicles caused by a routine construction project might occur.
Correspondence/Consultation/References: project description

H. Farmlands Protection Policy Act
☒ Project does not affect prime or unique farmland. (Review Concluded)
☐ Project causes unnecessary or irreversible conversion of prime or unique farmland.
☐ Coordination with Natural Resource Conservation Commission required.
☐ Farmland Conversion Impact Rating, Form AD-1006, completed.
Are project conditions required? ☑ YES (see section V) ☐ NO (Review Concluded)

Comment: No commitment of farm lands
Correspondence/Consultation/References: The project is in a forested area far from farm lands. See enclosed pictures of project area and project description.

I. Migratory Bird Treaty Act
☐ Project not located within a flyway zone. (Review Concluded)
☒ Project located within a flyway zone.
☒ Project does not have potential to take migratory birds. (Review Concluded)
☐ Project has potential to take migratory birds.
☐ Contact made with USFWS
Are project conditions required? ☐ YES (see section V) ☑ NO (Review Concluded)

Comment: N/A This project will not result in the migratory taking of birds.
Correspondence/Consultation/References: The Migratory Bird Treaty Act and Executive Order 13186, project description

Wastewater Treatment Plant Discharge Pumping Project

- Review completed as part of floodplain review
- 8 Step Process Complete - documentation on file

Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: Review of National Wetlands Inventory and topographical maps show wetlands in the general vicinity of the project area. The Town must follow the Clean Water Act, “Best Management Practices BMP”. The Town must contact the U.S. Army Corps of Engineers to inquire if a permit is required. The Town will need to obtain all necessary permits from relevant state agencies after the project specifications have been completed and before work begins.  
Correspondence/Consultation/References: http://wetlandsfws.er.usgs.gov/wtInds/launch.html; Topographical map of the area.

C. E.O. 12898 - Environmental Justice for Low Income and Minority Populations

☒ No Low income or minority population in, near or affected by the project - (Review Concluded)
☐ Low income or minority population in or near project area

☒ No disproportionately high and adverse impact on low income or minority population - (Review Concluded)
☐ Disproportionately high or adverse effects on low income or minority population

Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

Comments: Project will have no disproportionate effects on the local population.  
Correspondence/Consultation/References:

III. Other Environmental Issues

Identify other potential environmental concerns in the comment box not clearly falling under a law or executive order (see environmental concerns scoping checklist for guidance).

Comments: A review of the scoping guidance indicates no other environmental concerns.  
Correspondence/Consultation/References:

IV. Extraordinary Circumstances

Based on the review of compliance with other environmental laws and Executive Orders, and in consideration of other environmental factors, review the project for extraordinary circumstances.

* A “Yes” under any circumstance may require an Environmental Assessment (EA) with the exception of (ii) which should be applied in conjunction with controversy on an environmental issue. If the circumstance can be mitigated, please explain in comments. If no, leave blank.

Yes

☐ (i) Greater scope or size than normally experienced for a particular category of action
☐ (ii) Actions with a high level of public controversy
☐ (iii) Potential for degradation, even though slight, of already existing poor environmental conditions;
☐ (iv) Employment of unproven technology with potential adverse effects or actions involving unique or unknown environmental risks;
☐ (v) Presence of endangered or threatened species or their critical habitat, or archaeological, cultural, historical or other protected resources;
☐ (vi) Presence of hazardous or toxic substances at levels which exceed Federal, state or local regulations or standards requiring action or attention;

Record of Environmental Consideration 6 07.18.2007
(vii) Actions with the potential to affect special status areas adversely or other critical resources such as wetlands, coastal zones, wildlife refuge and wilderness areas, wild and scenic rivers, sole or principal drinking water aquifers;

(viii) Potential for adverse effects on health or safety; and

(ix) Potential to violate a federal, state, local or tribal law or requirement imposed for the protection of the environment.

(x) Potential for significant cumulative impact when the proposed action is combined with other past, present and reasonably foreseeable future actions, even though the impacts of the proposed action may not be significant by themselves.

Comments:

V. Environmental Review Project Conditions

General comments:

1. If ground disturbing activities occur during implementation, the applicant will monitor excavation activity, and if any artifacts or human remains are found during the excavation process all work is to cease and the applicant will notify FEMA, Grantee, and SHPO/THPO.

2. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements for the abatement and disposal of lead, asbestos, and other routinely encountered hazardous substances. If there is an unusual material encountered or there is an extraordinary amount of lead, asbestos, or other routinely encountered material the applicant must contact the Grantee and the Grantee must contact FEMA. The applicant must also contact the relevant agency with authority for regulation of the material.

3. If deviations from the proposed scope of work result in design changes, the need for additional ground disturbance, additional removal of vegetation, or result in any other unanticipated changes to the physical environment, the Grantee must contact FEMA, and a re-evaluation under NEPA and other applicable environmental laws will be conducted by FEMA.

Project Conditions:

1. As long as the appropriate soil erosion/siltation control measures and the best management practices for roads and culverts (e.g. placing culvert inverts at or slightly below grade in the bed of the stream to accommodate fish passage, working during low flow summer periods, etc.) are utilized, harm to fish and wildlife will be minimized.

2. The applicant must seed, mulch, and replant any disturbed ground with native shrubs and vegetation. A special effort shall be made to plant native vegetation at higher bank elevations. Plant native vegetation at higher bank elevations.

3. Commence work during low flow period.

4. Reroute or stop the flow of water into the project site.

5. If necessary, dewater the project site.

6. Excavate unsuitable wash material from site.

7. Remove erosion control measures after the construction area has been stabilized.

The applicant must ensure that best managing practices for roads and culverts and installation of erosion control measures are utilized. Construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act’s: “Best Management Practices, BMP” for erosion control during construction of this project. This includes, the applicant applying for all local, state, and federal permits and easements necessary to complete the project and obtaining these permits prior to commencement of any work. Any conditions of these permits become conditions of this grant, project, and environmental review. In accordance with FEMA Guidelines, applicants are required to comply with the federal law provisions of: the Water Pollution Control Act, as amended; Section 10 of the Rivers and Harbors Act; and Section 404 of the Clean Water Act, requirements regarding acquisition of appropriate permits or determinations from the U.S. Army Corps of Engineers (USACE) for projects funded by FEMA. All correspondence (including copies of any permits issued by USACE) regarding these determinations should be coordinated with and copies
forwarded to FEMA. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements and/or obtain proper local, state, and federal permit concerning this project. Any conditions of this process or these regulations, laws, and policies become conditions of this grant, project, and environmental review.

Monitoring Requirements: Quarterly Reports, and final inspection of the scope of work and accounting records are required.
Project Review and Conditions Status

FEMA-DR-1698

**Project Name/Number:** FEMA-HMGP-1698-2-R Wastewater Treatment Plant Discharge Pumping Project, Montpelier, VT

**Project Location:** Along the Winooski River adjacent to lower State Street, starting from the confluence of Dog River and the Winooski River to approximately 5,300 linear feet upstream ending just above the Bailey Avenue Bridge.
Latitude: N 44.256077 Longitude: -72.600425

**Project Description:** The City of Montpelier, VT proposes to install a permanent method of opening channels through the ice in the Winooski River downstream from the Montpelier downtown area. The purpose of opening the channels is to allow the passage of water to keep flood waters down. The technique involves installing a pumping system at the Montpelier Treatment Plant discharge manhole and a new force main extending to just upstream of the Bailey Avenue Bridge, with a total of six new discharge points along the river. The treated discharge water from the Montpelier Wastewater Plant will be pumped on to the ice to melt and break up the ice. The objective of this project is to prevent flooding damage caused by the ice jams on the river.

**Environmental Review Project Conditions**

1. If ground disturbing activities occur during implementation, the applicant will monitor excavation activity, and if any artifacts or human remains are found during the excavation process all work is to cease and the applicant will notify FEMA, Grantee, and SHPO/THPO.

2. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements for the abatement and disposal of lead, asbestos, and other routinely encountered hazardous substances. If there is an unusual material encountered or there is an extraordinary amount of lead, asbestos, or other routinely encountered material the applicant must contact the Grantee and the Grantee must contact FEMA. The applicant must also contact the relevant agency with authority for regulation of the material.

3. If deviations from the proposed scope of work result in design changes, the need for additional ground disturbance, additional removal of vegetation, or result in any other unanticipated changes to the physical environment, the Grantee must contact FEMA, and a re-evaluation under NEPA and other applicable environmental laws will be conducted by FEMA.

**Other Required Project Specific Conditions**
1. The culvert must be constructed in such a way as to not inhibit the movement of aquatic organisms, particularly fish. The culvert invert must be placed approximately 6" in the streambed or an arch or bottomless structure must be used.

2. As long as the appropriate soil erosion/siltation control measures and the best management practices for roads and culverts (e.g. placing culvert inverts at or slightly below grade in the bed of the stream to accommodate fish passage, working during low flow summer periods, etc.) are utilized, harm to fish and wildlife will be minimized.

3. The applicant must seed, mulch, and replant any disturbed ground with native shrubs and vegetation. A special effort shall be made to plant native vegetation at higher bank elevations.

4. The applicant must ensure that best managing practices for roads and culverts are utilized, and installation of erosion control. Construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act's: "Best Management Practices, BMP" for erosion control during construction of this project. This includes, the applicant applying for all local, state, and federal permits and easements necessary to complete the project and obtaining these permits prior to commencement of any work. Any conditions of these permits become conditions of this grant, project, and environmental review. In accordance with FEMA Guidelines, applicants are required to comply with the federal law provisions of: the Water Pollution Control Act, as amended; Section 10 of the Rivers and Harbors Act; and Section 404 of the Clean Water Act, requirements regarding acquisition of appropriate permits or determinations from the U.S. Army Crops of Engineers (USACE) for projects funded by FEMA. All correspondence (including copies of any permits issued by USACE) regarding these determinations should be coordinated with and copies forwarded to FEMA. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements and/or obtain proper local, state, and federal permit concerning this project. Any conditions of this process or these regulations, laws, and policies become conditions of this grant, project, and environmental review.

Monitoring Requirements:
Quarterly Reports and final inspection of scope of work and accounting records are required.

Funding
Total Cost of Project: $582,800
Federal Share: $437,100
Applicant Share: $145,700

Period of Performance
This project must be complete by: 6/30/10

- All permits must be obtained and forwarded to FEMA before any work begins.

- Any deviation from this scope of work, conditions or funding must be approved in advance, in writing.

- Applicants must comply with HMGP requirements, grants management procedures in 44 CFR Part 13, the grant agreement, and applicable Federal State, and lows and standards.
Memo

To: David Beatty, Budget & Management Analyst

Re: Request for Grant Acceptance

Attached you will find a Request for Grant Acceptance for the federal funding awarded to the State of Vermont for the Presidential declaration of major disaster # FEMA-DR-1698-VT.

If you have any questions, please contact me at 802-241-5574 or email at tbedard@dps.state.vt.us.

Thank you.
DEPARTMENT: Public Safety

DATE: August 1, 2008

GRANT/DONATION: Montpelier Ice Jam Mitigation Project
    Hazard Mitigation Grant Program FEMA-DR-1698-VT

GRANTOR/DONOR: U.S. Department of Homeland Security
    FEMA Region 1

GRANT PERIOD: May 1, 2008 – May 18, 2010

AMOUNT/VALUE:
    Federal Funding $ 458,935
    Local Match $ 145,700

POSITIONS REQUESTED (LIMITED SERVICE): None

ANY ON-GOING, LONG-TERM COSTS TO THE STATE: None

COMMENTS:
Attached Form AA-1 provides details.

I recommend acceptance of this grant. D

DEPT. FINANCE AND MANAGEMENT: (INITIAL) 8/13/08
SECRETARY OF ADMINISTRATION: (INITIAL) 8PM 8/15/08
SENT TO JOINT FISCAL OFFICE: (DATE) 8/12/08

RECEIVED
AUG 19 2008
JOINT FISCAL OFFICE
STATE OF VERMONT
REQUEST FOR GRANT ACCEPTANCE
(Rev. 9-90)

Agency: 
Department: Public Safety
Program: Emergency Management

Legal Title of Grant: Hazard Mitigation Grant Program - FEMA-DR-1698-VT
Federal Catalog No.: 97.039
Grantor and Office Address: U.S. Department of Homeland Security
FEMA Region 1
99 High Street, 6th Floor
Boston, MA 02110-2132

Grant Period: From: 5/19/2008 To: 5/18/2010

Purpose of Grant: (attach additional sheets if needed)
Installation of a permanent method that will open channels through ice in the Winooski River downstream from the Montpelier downtown area. This will allow the passage of water and keep flood waters down.

Impact on Existing Programs if Grant is not Accepted:
If not accepted, the site area would continue to suffer the impact of flooding events. This would include further damage to structures and the nearby roads and downtown Montpelier area.

Record of Environmental Consideration

Project Name/Number: FEMA-HMGP-1698-2-R Wastewater Treatment Plant Discharge Pumping Project, Montpelier, VT

Project Location: Along the Winooski River adjacent to lower State Street, starting from the confluence of Dog River and the Winooski River to approximately 5,300 linear feet upstream ending just above the Bailey Avenue Bridge. 
Latitude: N 44.256077 Longitude: -72.600425

Project Description: The City of Montpelier, VT proposes to install a permanent method of opening channels through the ice in the Winooski River downstream from the Montpelier downtown area. The purpose of opening the channels is to allow the passage of water to keep flood waters down. The technique involves installing a pumping system at the Montpelier Treatment Plant discharge manhole and a new force main extending to just upstream of the Bailey Avenue Bridge, with a total of six new discharge points along the river. The treated discharge water from the Montpelier Wastewater Plant will be pumped on to the ice to melt and break up the ice. The objective of this project is to prevent flooding damage caused by the ice jams on the river.

Documentation Requirements

☐ No Documentation Required (Review Concluded)

☐ (Short version) All consultation and agreements implemented to comply with the National Historic Preservation Act, Endangered Species Act, and Executive Orders 11988, 11990 and 12898 are completed and no other laws apply. (Review Concluded)

☒ (Long version) All applicable laws and executive orders were reviewed. Additional information for compliance is attached to this REC.

National Environmental Policy Act (NEPA) Determination

☐ Statutorily excluded from NEPA review. (Review Concluded)

☒ Categorical Exclusion - Category xvi

☒ No Extraordinary Circumstances exist.

☐ Are project conditions required? ☒ Yes (see section V) ☐ No (Review Concluded)

☐ Extraordinary Circumstances exist (See Section IV).

☐ Extraordinary Circumstances mitigated. (See Section IV comments)

☐ Are project conditions required? ☐ Yes (see section V) ☒ No (Review Concluded)

☐ Environmental Assessment required. See FONSI for determination, conditions and approval.

Comments:
Correspondence/Consultation/References: project Description, site visit. Based on information provided by the grantee, the scope of work for this project qualifies as a Categorical Exclusion (CATEX) under 44 CFR.

Record of Environmental Consideration 2 07.18.2007
### B. Endangered Species Act

- **No listed species and/or designated critical habitat present in the action area.** (Review Concluded)
- **Listed species and/or designated critical habitat present in the action area.**
  - No effect to species or designated critical habitat. (See comments for justification) (Review Concluded)
  - May affect, but not likely to adversely affect species or designated critical habitat (FEMA determination/USFWS/NMFS concurrence on file) (Review Concluded)
  - Likely to adversely affect species or designated critical habitat
    - Formal consultation concluded. (Biological Assessment and Biological Opinion on file)

**Are project conditions required?**
- **YES** (see section V) **NO** (Review Concluded)

### Comments:
Review by Judith Maloney, FEMA, of U.S. Fish and Wildlife Service Endangered Species web site revealed that no federally listed or proposed threatened and endangered species under the jurisdiction of the U.S. Fish and Wildlife are known to occur in the vicinity of the areas of proposed projects.

**Correspondence/Consultation/References:** U.S. Fish and Wildlife Service Endangered Species web site

### C. Coastal Barrier Resources Act

- **Project is not located in Coastal Barriers Resource System or Otherwise Protected Area.**
- **Project does not affect a coastal barrier within the COBRA System (regardless of in or out)** (Review Concluded)
- **Project is located in a coastal barrier system and/or affects a coastal barrier.** (FEMA determination/USFWS consultation on file)
  - Proposed action an exception under Section 3505.a.6? (Review Concluded)
  - Proposed action not excepted under Section 3505.a.6.

**Are project conditions required?**
- **YES** (see section V) **NO** (Review Concluded)

### Comments:
This project is not in or near a coastal area.

**Correspondence/Consultation/References:** Coastal Barrier Resources Act, N.E. maps

### D. Clean Water Act

- **Project site located outside of and would not affect any waters of the U.S.** (Review Concluded)
- **Project site located in or would affect waters, including wetlands, of the U.S.**
  - Project exempted as in kind replacement or other exemption. (Review Concluded)
  - Project requires Section 404/401/10 permit, including qualification under Nationwide Permits.

**Are project conditions required?**
- **YES** (see section V) **NO** (Review Concluded)

### Comments:
Project improvements may require permits from appropriate local, state, and federal agencies. Additionally, construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act, “Best Management Practices BMP”. The Town must contact the US Army Corps of Engineers to inquire if a permit is required. The Town will need to obtain all necessary permits from relevant state agencies after the project specifications have been completed.

**Correspondence/Consultation/References:** Section 10 of the Rivers and Harbors Act, Section 404 of the Clean Water Act, (Re: determinations and acquisition of appropriate permits), and local Conservation Commission regulations.

### E. Coastal Zone Management Act

- **Project does not affect a coastal zone area (regardless of in or out)** (Review concluded)
- **Project is not located in a coastal zone area.** (Review concluded)
- **Project is located in a coastal zone area and/or affects the coastal zone**
  - State administering agency does not require consistency review. (Review Concluded)
  - State administering agency requires consistency review.

**Are project conditions required?**
- **YES** (see section V) **NO** (Review Concluded)
F. Fish and Wildlife Coordination Act

☐ Project is not located in or affects a waterway/body of water. *(Review Concluded)*
☐ Project affects, controls or modifies a waterway/body of water.
☐ Coordination with USFWS conducted
  ☐ No Recommendations offered by USFWS *(Review Concluded)*
  ☐ Recommendations provided by USFWS.
  Are project conditions required? ☐ YES (see section V) ☐ NO *(Review Concluded)*

Comments: Review by Judith Maloney, FEMA, of U.S. Fish and Wildlife Service Endangered Species web site revealed that no federally listed or proposed threatened and endangered species under the jurisdiction of the U.S. Fish and Wildlife are known to occur in the vicinity of the areas of proposed projects.

Correspondence/Consultation/References: U.S. Fish and Wildlife Service Endangered Species web site

G. Clean Air Act

☐ Project will not result in permanent air emissions. *(Review Concluded)*
☐ Project is located in an attainment area. *(Review Concluded)*
☐ Project is located in a non-attainment area.
  ☐ Coordination required with applicable state administering agency.
  Are project conditions required? ☐ YES (see section V) ☐ NO *(Review Concluded)*

Comments: Any emissions from construction equipment will be temporary in nature. Only minimal, temporary dust and increased emissions from construction vehicles caused by a routine construction project might occur.

Correspondence/Consultation/References: project description

H. Farmlands Protection Policy Act

☐ Project does not affect prime or unique farmland. *(Review Concluded)*
☐ Project causes unnecessary or irreversible conversion of prime or unique farmland.
  ☐ Coordination with Natural Resource Conservation Commission required.
    ☐ Farmland Conversion Impact Rating, Form AD-1006, completed.
    Are project conditions required? ☐ YES (see section V) ☐ NO *(Review Concluded)*

Comments: No commitment of farm lands

Correspondence/Consultation/References: The project is in a forested area far from farm lands. See enclosed pictures of project area and project description.

I. Migratory Bird Treaty Act

☐ Project not located within a flyway zone. *(Review Concluded)*
☒ Project located within a flyway zone.
  ☐ Project does not have potential to take migratory birds. *(Review Concluded)*
  ☒ Project has potential to take migratory birds.
  ☐ Contact made with USFWS
    Are project conditions required? ☒ YES (see section V) ☐ NO *(Review Concluded)*

Comments: N/A This project will not result in the migratory taking of birds.

Correspondence/Consultation/References: The Migratory Bird Treaty Act and Executive Order 13186, project description

J. Magnuson-Stevens Fishery Conservation and Management Act

Record of Environmental Consideration 4 07.18.2007
Project not located in or near Essential Fish Habitat. (Review Concluded)

Project located in or near Essential Fish Habitat.
  □ Project does not adversely affect Essential Fish Habitat. (Review Concluded)
  □ Project adversely affects Essential Fish Habitat (FEMA determination/USFWS/NMFS concurrence on file)
    □ NOAA Fisheries provided no recommendation(s) (Review Concluded).
    □ NOAA Fisheries provided recommendation(s)
      □ Written reply to NOAA Fisheries recommendations completed.
      Are project conditions required? □ YES (see section V) □ NO (Review Concluded)

Comments: No Essential Fish habitat is adversely affected by this project. Review by Judith Maloney, FEMA, of U.S. Fish and Wildlife Service Endangered Species web site revealed that no federally listed or proposed threatened and endangered species under the jurisdiction of the U.S. Fish and Wildlife are known to occur in the vicinity of the areas of proposed projects.

Correspondence/Consultation/References: U.S. Fish and Wildlife Service Endangered Species web site

K. Wild and Scenic Rivers Act

□ Project is not along and does not affect a Wild or Scenic River - (Review Concluded)
□ Project is along or affects Wild or Scenic River
  □ Project adversely affects WSR as determined by NPS/USFS. FEMA cannot fund the action.
  (NPS/USFS/USFWS/BLM consultation on file)
  □ Project does not adversely affect WSR. (NPS/USFS/USFWS/BLM consultation on file)
  Are project conditions required? □ YES (see section V) □ NO (Review Concluded)

Comments: Winooski River is not a designated river.

L. Other Relevant Laws and Environmental Regulations

Identify relevant law or regulations, resolution and any consultation/references: N/A

II. Compliance Review for Executive Orders

A. E.O. 11988 - Floodplains

□ Outside Floodplain and No Effect on Floodplains/Flood levels - (Review Concluded)
□ Located in Floodplain or Effects on Floodplains/Flood levels
  □ No adverse effect on floodplain or can be adversely affected by the floodplain. (Review Concluded).
  □ Beneficial Effect on Floodplain Occupancy/Values (Review Concluded).
  □ Possible adverse effects associated with investment in floodplain, occupancy or modification of floodplain environment
    □ 8 Step Process Complete - documentation on file
    Are project conditions required? □ YES (see section V) □ NO (Review Concluded)

Comments: Project is located in B Zone (area between the limits of the 100 year flood and the 500-year flood or certain areas subject to 100-year flooding with average depths less than one foot or where the contributing drainage area is less than one square mile or areas protected by levees from the base flood.

Correspondence/Consultation/References: Flood Insurance Rate Map Community-Panel Number 600116 0001C, Panel 1 of 4, Effective Date March 1, 1984.

B. E.O. 11990 - Wetlands

□ Outside Wetland and No Effect on Wetland(s) - (Review Concluded)
□ Located in Wetland or effects Wetland(s)
  □ Beneficial Effect on Wetland - (Review Concluded)
  □ Possible adverse effect associated with constructing in or near wetland

Record of Environmental Consideration 5 07.18.2007
Reviewer Name: Judith A. Honey  
Applicant: City of Montpelier, VT  
Disaster/Emergency/Program/Project Title: FEMA-HMGP-1698  
Wastewater Treatment Plant Discharge Pumping Project

☐ Review completed as part of floodplain review  
☐ 8 Step Process Complete - documentation on file  
Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

**Comments:** Review of National Wetlands Inventory and topographical maps show wetlands in the general vicinity of the project area. The Town must follow the Clean Water Act, “Best Management Practices BMP”. The Town must contact the U.S. Army Corps of Engineers to inquire if a permit is required. The Town will need to obtain all necessary permits from relevant state agencies after the project specifications have been completed and before work begins.

**Correspondence/Consultation/References:** [http://wetlandsfws.er.usgs.gov/wtInds/launch.html](http://wetlandsfws.er.usgs.gov/wtInds/launch.html); Topographical map of the area.

### C. E.O. 12898 - Environmental Justice for Low Income and Minority Populations

☒ No Low income or minority population in, near or affected by the project - (Review Concluded)

☐ Low income or minority population in or near project area

☐ No disproportionately high and adverse impact on low income or minority population - (Review Concluded)

☐ Disproportionately high or adverse effects on low income or minority population

Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)

**Comments:** Project will have no disproportionate effects on the local population.

**Correspondence/Consultation/References:**

### III. Other Environmental Issues

Identify other potential environmental concerns in the comment box not clearly falling under a law or executive order (see environmental concerns scoping checklist for guidance).

**Comments:** A review of the scoping guidance indicates no other environmental concerns.

**Correspondence/Consultation/References:**

### IV. Extraordinary Circumstances

Based on the review of compliance with other environmental laws and Executive Orders, and in consideration of other environmental factors, review the project for extraordinary circumstances.

* A “Yes” under any circumstance may require an Environmental Assessment (EA) with the exception of (ii) which should be applied in conjunction with controversy on an environmental issue. If the circumstance can be mitigated, please explain in comments. If no, leave blank.

**Yes**

☐ (i) Greater scope or size than normally experienced for a particular category of action

☐ (ii) Actions with a high level of public controversy

☐ (iii) Potential for degradation, even though slight, of already existing poor environmental conditions;

☐ (iv) Employment of unproven technology with potential adverse effects or actions involving unique or unknown environmental risks;

☐ (v) Presence of endangered or threatened species or their critical habitat, or archaeological, cultural, historical or other protected resources;

☐ (vi) Presence of hazardous or toxic substances at levels which exceed Federal, state or local regulations or standards requiring action or attention;

Record of Environmental Consideration 6 07.18.2007
(vii) Actions with the potential to affect special status areas adversely or other critical resources such as wetlands, coastal zones, wildlife refuge and wilderness areas, wild and scenic rivers, sole or principal drinking water aquifers;

(viii) Potential for adverse effects on health or safety; and

(ix) Potential to violate a federal, state, local or tribal law or requirement imposed for the protection of the environment.

(x) Potential for significant cumulative impact when the proposed action is combined with other past, present and reasonably foreseeable future actions, even though the impacts of the proposed action may not be significant by themselves.

Comments:

V. Environmental Review Project Conditions

General comments:

1. If ground disturbing activities occur during implementation, the applicant will monitor excavation activity, and if any artifacts or human remains are found during the excavation process all work is to cease and the applicant will notify FEMA, Grantee, and SHPO/THPO.

2. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements for the abatement and disposal of lead, asbestos, and other routinely encountered hazardous substances. If there is an unusual material encountered or there is an extraordinary amount of lead, asbestos, or other routinely encountered material the applicant must contact the Grantee and the Grantee must contact FEMA. The applicant must also contact the relevant agency with authority for regulation of the material.

3. If deviations from the proposed scope of work result in design changes, the need for additional ground disturbance, additional removal of vegetation, or result in any other unanticipated changes to the physical environment, the Grantee must contact FEMA, and a re-evaluation under NEPA and other applicable environmental laws will be conducted by FEMA.

Project Conditions:

1. As long as the appropriate soil erosion/siltation control measures and the best management practices for roads and culverts (e.g. placing culvert inverts at or slightly below grade in the bed of the stream to accommodate fish passage, working during low flow summer periods, etc.) are utilized, harm to fish and wildlife will be minimized.

2. The applicant must seed, mulch, and replant any disturbed ground with native shrubs and vegetation. A special effort shall be made to plant native vegetation at higher bank elevations. Plant native vegetation at higher bank elevations.

3. Commence work during low flow period.

4. Reroute or stop the flow of water into the project site.

5. If necessary, dewater the project site.

6. Excavate unsuitable wash material from site.

7. Remove erosion control measures after the construction area has been stabilized.

The applicant must ensure that best managing practices for roads and culverts and installation of erosion control measures are utilized. Construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act's: "Best Management Practices, BMP" for erosion control during construction of this project. This includes, the applicant applying for all local, state, and federal permits and easements necessary to complete the project and obtaining these permits prior to commencement of any work. Any conditions of these permits become conditions of this grant, project, and environmental review. In accordance with FEMA Guidelines, applicants are required to comply with the federal law provisions of: the Water Pollution Control Act, as amended; Section 10 of the Rivers and Harbors Act; and Section 404 of the Clean Water Act, requirements regarding acquisition of appropriate permits or determinations from the U.S. Army Corps of Engineers (USACE) for projects funded by FEMA. All correspondence (including copies of any permits issued by USACE) regarding these determinations should be coordinated with and copies
forwarded to FEMA. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements and/or obtain proper local, state, and federal permit concerning this project. Any conditions of this process or these regulations, laws, and policies become conditions of this grant, project, and environmental review.

Monitoring Requirements: Quarterly Reports, and final inspection of the scope of work and accounting records are required.
Project Review and Conditions Status

FEMA-DR-1698

**Project Name/Number:** FEMA-HMGP-1698-2-R  Wastewater Treatment Plant Discharge Pumping Project, Montpelier, VT

**Project Location:** Along the Winooski River adjacent to lower State Street, starting from the confluence of Dog River and the Winooski River to approximately 5,300 linear feet upstream ending just above the Bailey Avenue Bridge.

Latitude: N 44.256077  Longitude: -72.600425

**Project Description:** The City of Montpelier, VT proposes to install a permanent method of opening channels through the ice in the Winooski River downstream from the Montpelier downtown area. The purpose of opening the channels is to allow the passage of water to keep flood waters down. The technique involves installing a pumping system at the Montpelier Treatment Plant discharge manhole and a new force main extending to just upstream of the Bailey Avenue Bridge, with a total of six new discharge points along the river. The treated discharge water from the Montpelier Wastewater Plant will be pumped on to the ice to melt and break up the ice. The objective of this project is to prevent flooding damage caused by the ice jams on the river.

**Environmental Review Project Conditions**

1. If ground disturbing activities occur during implementation, the applicant will monitor excavation activity, and if any artifacts or human remains are found during the excavation process all work is to cease and the applicant will notify FEMA, Grantee, and SHPO/THPO.

2. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements for the abatement and disposal of lead, asbestos, and other routinely encountered hazardous substances. **Other Required Project Specific Conditions**
1. The culvert must be constructed in such a way as to not inhibit the movement of aquatic organisms, particularly fish. The culvert invert must be placed approximately 6" in the streambed or an arch or bottomless structure must be used.

2. As long as the appropriate soil erosion/siltation control measures and the best management practices for roads and culverts (e.g. placing culvert inverts at or slightly below grade in the bed of the stream to accommodate fish passage, working during low flow summer periods, etc.) are utilized, harm to fish and wildlife will be minimized.

3. The applicant must seed, mulch, and replant any disturbed ground with native shrubs and vegetation. A special effort shall be made to plant native vegetation at higher bank elevations.

4. The applicant must ensure that best managing practices for roads and culverts are utilized, and installation of erosion control. Construction activities that result in disturbed ground must be protected against erosion into the stream. The Town must follow the Clean Water Act’s: “Best Management Practices, BMP” for erosion control during construction of this project. This includes, the applicant applying for all local, state, and federal permits and easements necessary to complete the project and obtaining these permits prior to commencement of any work. Any conditions of these permits become conditions of this grant, project, and environmental review. In accordance with FEMA Guidelines, applicants are required to comply with the federal law provisions of: the Water Pollution Control Act, as amended; Section 10 of the Rivers and Harbors Act; and Section 404 of the Clean Water Act, requirements regarding acquisition of appropriate permits or determinations from the U.S. Army Corps of Engineers (USACE) for projects funded by FEMA. All correspondence (including copies of any permits issued by USACE) regarding these determinations should be coordinated with and copies forwarded to FEMA. The applicant must follow all applicable local, state, and federal laws, regulations, and requirements and/or obtain proper local, state, and federal permit concerning this project. Any conditions of this process or these regulations, laws, and policies become conditions of this grant, project, and environmental review.

Monitoring Requirements:
Quarterly Reports and final inspection of scope of work and accounting records are required.

Funding
Total Cost of Project: $582,800
Federal Share: $437,100
Applicant Share: $145,700

Period of Performance
This project must be complete by: 6/30/10

- All permits must be obtained and forwarded to FEMA before any work begins.
- Any deviation from this scope of work, conditions or funding must be approved in advance, in writing.
- Applicants must comply with HMGP requirements, grants management procedures in 44 CFR Part 13, the grant agreement, and applicable Federal State, and lows and standards.
